

Table of Contents

Preface

Chapter 1: Functional Thin Films

MIPs of Diuron Analysis Based on Screen-Printed Carbon Electrode Modification P. Khownarumit, K. Choosang and R.P. Poo-Arporn	3
Nanoindentation Study of AlN Thin Films Deposited on Sapphire and ITO/GLASS Substrates M. Cadenas, S. Valdueza-Felip, F.B. Naranjo and A.M. Diez-Pascual	9
The Fabrication of Free-Standing Anodic Aluminum Oxide on 5N and 6061 Aluminum Tube N.T. Nguyet, S.F. Chang, P.H. Chen and C.C. Chen	15

Chapter 2: Materials for Environmental and Biomedical Engineering

Eggshell-Derived Magnetic CaAl Layered Double Hydroxides: Synthesis and Application as Methyl Orange Adsorbent C. Suwanchawalit and S. Suvokhiaw	23
Effect of Citric Acid Treatment on Doxycycline Sorption of Chitosan Hydrogel C.M. Montealegre, J.V.S. Manlangit, C.L.A. Masiglat and E.F.C. Taleon	31

Chapter 3: Oilfield Chemical Additives in Oil Recovery Technologies

Synthesis and Performance Evaluation of an Amphiphilic Polymer Thickener for Enhanced Imbibition Fracturing Fluids W.D. Wang, W.A. Huang, Y.Z. Ge and R.Y. Bai	39
Synthesis of Environmentally Friendly Proline Mannich Quaternary Ammonium Salt and Its Acidification Corrosion Inhibition Performance R.Y. Bai, W.A. Huang, W.D. Wang and Y.Z. Ge	45
Effect of ZnCl₂ on the Performance of Antiscaling Nanoparticles for Long-Lasting Extrusion Injection Y.Z. Ge, W.A. Huang, W.D. Wang and R.Y. Bai	53

Chapter 4: Additive Manufacturing

Wood-Based Polymer Composites for Additive Manufacturing: Influence of Printing Strategy on Product Properties A. Chystiakov, O.A.Q. Ziada, S.A. Ahmed and J. Kovacikova	61
Material Characterization of FDM-Printed PLA Parts I.G. Kovačić, M. Dundović, Ž. Vrcan and K. Marković	69
Study on the Mechanical and Material Properties of Metal 3D Printing Specimens by FDM C.K. Lin, S.C. Yang, W.K. Liang, W.Y. Hong and Y.S. Wang	75

Chapter 5: Processing Technologies

Effect of Low-Melting-Point Calcium Aluminate Flux Prepared by Electrofusion Method on the Fluxing Capability and Desulfurization Capability of CaO-Al₂O₃- Based Desulfurizers S.F. Luo, W. Wu and C.M. Lin	83
Wedge Cutting Characteristics of Copper Foil Stacked on Adhesive Tape Using a Cemented Carbide Knife when Changing the Apex Angle and the Indentation Velocity of the Wedge S. Nagasawa and S. Hayashihara	89

Finite Element Method (FEM) Simulation of Modified Mechanical Jig on Upper Backer Press Process at PT XYZ Indonesia to Reduce the Surface Defect on Piano Sideboard I.A. Dharma, P. Puspaputra and G.A. Amrizal	97
Performance Evaluation of a Motorized Copper-Tube Bending System for Building Mechanical Installations J.V. Espina, B. Daga-Ang, N.G. Obsuna and L.S. Cayme	105
Energy Optimization of Aluminum Melting Furnaces in Automotive Wheel Manufacturing Using an Artificial Intelligence Technique C. Pornsing, T. Inta and S. Ohmori	113

Chapter 6: Applied Mechanics

Parametric Finite Element Modeling of Rifled Barrels with Bore Damage Z.Y. Ge, K.D. Zhou, H.Y. Ren and S.K. Li	121
Developing an Analytical Model for the Temperature Dependence of Thermal Expansion Coefficient M. Aniya	131

Chapter 7: Green Building Materials

Utilization of Concrete Road Debris as a Coarse Aggregate for Concrete Mix Used in Construction C.L.S.A. Jada-Ong, J.S.D. Formon, T.U. Boddie, J.T. Cabuñas and M.M.C. Rodriguez	139
Compressive Strength Analysis of Bricks with Mussels (<i>Mytilus Edulis</i>), Mollusk (<i>Bivalvia</i>), and Paper Waste D.L.R. Alesna, J.R.S. Apale, N.G. Espiritu, L.S. Guieb, M.G. Calamba and M.B. Tabanao	145
Mechanical Performance and Structural Feasibility of High-Recycled Content PVC -Air Bubble Film (ABF) Composites for Sustainable Sheet Pile Construction I.G. Mateo, N.D.C. Paulino, F.J.B. Solana, J.C.R. Buenaventura and L.J.T. Caylao	153
Prediction of Carbonation Depth in Concrete with Recycled Concrete Aggregate (RCA) Using Response Surface Methodology L.M. Agustin and B.R.P. Aniban	161
The Investigation of the Effect of Integral Waterproofing Admixture on Mitigating Corrosion Damage of Steel Reinforcement in Concrete L.T. Advincula, E.T. Aranas, R.R.M. Castillo, A.N.M. Lucero and J.A.S. Telan	169
