

Table of Contents

Preface

Chapter 1: Structural Materials

Study of Sensitization in Gas Tungsten Arc Welded 304 Stainless Steel Joints Using 308L Filler Metal

H. Oktadinata, M. Martijanti, P.Y.M.W. Ndaruuhadi and E.A. Alsayed 3

Effect of Heat Treatment Process on the Microstructure and Hardness of Train Wheel Material

M. Kozin and B. Tambunan 11

Review of the Physical Properties of CLC Lightweight Concrete Using the Addition of Red Sand from Labuhan Batu Selatan

G.K. Tampubolon, M.H. Harahap and W. Putra 19

Chapter 2: Earthquake Resistance Planning and Computational Research in Geophysics

The Effect of Earthquake Vibration on the Deformation of the Steel Structure of a Special Moment Frame System

B. Hadibroto, E. Barlian, K. Jeumpa, S. Sarwa and M.Y. Irsya 27

Landslide Mapping from the Cyclone Seroja in Kupang City Using Remote Sensing

M.W. Kati, M.A.L. Eluama and F.R. Ngana 39

Hypocenter Relocation Using Fast Marching Method (FMM) in Tarutung

Z.A. Al Atas, U. Muksin, M. Muzli and V.H. Banyunegoro 47

Analysis DEM and Geological Observation Data for Study of the Potential Landslide National Street for Jantho - Lamno

M. Zainal, M. Nabil, D. Sugiyanto, A. Muhamad and M. Yanis 55

Optimizing the Gravity Data and Geological Observation for Mapping the Local Fault around the Jaboi Volcano

M. Yanis, Z. Nasrullah, M. Isa, A. Riski, M. Zainal and A.Y. Paembongan 65

Convex Relaxation for Solving Polynomial Programs through Quadratization Technique

L.P. Sinaga, T. Tulus, E. Herawati and S. Nasution 73
