

Table of Contents

Preface

Chapter 1: Building Materials

Effect of Perlite Composition on Compressive and Split Tensile Strength of Fly Ash-Based Geopolymer Concrete M. Sofyan, M.A. Thariq Arifin, A. Dasar and I.W. Kustanrika	3
Experimental Study of Cement Setting Time Using Naptha Belide E121 Admixture on 24-Hour Fast Track Concrete Quality K-500 A. Kurniawan and R.H. Purba	11
Mortar Characteristics with the Addition of Lignin Using 1M NaOH as Biopolymer Admixture M.T. Romdoni, A.O. Irlan, T. Triastuti and A. Nugroho	33
Effect of Activator Solution Molarity on the Performance of Perlite-Substituted Geopolymer Concrete F.B. Rifalqhi, E.V. Lumbantoruan, M.A. Thariq Arifin, M. Sofyan and R.R.M. Ageng Kinasti	41
Effect of Hydrothermal Carbonization of Coconut Coir on Mechanical Properties of Cement Mortar W. Ellyta, A. Okvianti Irlan, A. Nugroho and T. Triastuti	47
Study of Corrosion Rate of Steel Plates due to Natural Exposure in Corrosive Environments in Tropical Regions A.R.J. Satundan, R. Djamaluddin and F. Fakhruddin	57

Chapter 2: Road Pavement

The Influence of Variations in the Thickness and Density of Hot Asphalt Pavement Layers on the Results of the Marshall Test Field Test of Laston AC-WC Mixture E.P. Jaya and S. Sugito	69
--	----

Chapter 3: Structural Behavior of Reinforced Concrete Beams

Flexural Behavior of Hybrid Geopolymer Fly Ash Beams with Addition of PVA (Polyvinyl Alcohol) Fiber H. Ikhsan Sugiarto, R. Irmawaty and J.J. Ekaputri	81
Shear Strengthening Behavior of Reinforced Concrete Beams with Varying Blot Spacing and Wire Mesh Presence in Geopolymer Mortar Panels M.A. Irsyad, R. Irmawaty and F. Fakhruddin	93
Effectivity of the Hybrid Fiber Reinforced Polymer in Strengthening of RC-Beams R. Djamaluddin, F. Fakhruddin, I. Aiman and R.T. Wahyuningsih	103

Chapter 4: Seismic Design of Buildings

Properties of Composite Panel as Wall Structure for Housing M.R. Fatriady, R. Djamaluddin, M.W. Tjaronge and A.A. Amiruddin	115
Evaluating the Impact of Skybridge on the Analysis, Design, and BIM Integration of a Multi-Tower Structure: A Case Study in Laboratory Building Construction J. Sjah, M.L.S. Tambunan and A.D. Rarasati	123
