

Preface

We welcome you to the proceedings of the 3rd International Conference of Engineering Sciences (ICES 2022) that successfully took place on December 14-15, 2022, at the Al-Nahrain University, Baghdad, Iraq.

ICES 2022 is the premier forum for the presentation of new advances and research results in the fields of Engineering Sciences. The conference brought together leading researchers, engineers and scientists in the domain of interest from around the world.

The main objective of ICES 2022 is to provide a comprehensive global forum for experts and participants from academia and industry to exchange ideas and present the results of ongoing research.

The selected articles presented here describe the latest research in geotechnics, structural engineering and concrete technologies. The collection will be helpful to engineers and researchers in construction technologies and building materials.
