

Table of Contents

Characterization of the Defect Structure in Molecular Organic Crystals Using Ultrasonic Measurements R.A. Pethrick	1
Theoretical Description of RED: From Dynamics of Defects to Rules for Phase Formation P.C.T. D'Ajello	14
Point Defect Behaviour Resulting from Dopant Diffusions in Silicon T. Okino	48
Defects Below Mask Edges in Silicon Induced by Amorphizing Implantations H. Cerva	103
Transmission Electron Microscopy Study of the Microstructure of a GaN Film Grown on Sapphire by Organometallic Vapor Phase Exptaxy D.P. Yu, L.S. Chen, G.Y. Zhang, Y.Z. Tong, Z.J. Yang, S.X. Jin, L.P. You, Z.Q. Liu and Z. Zhang	122
Acceptor Impurities in Silicion Carbide: Electron Paramagnetic Resonance and Optically Detected Magnetic Resonance Studies P.G. Baranov	129
Hydrogen Diffusion Coefficient Dependencies on Hydrogen Contents in PdAg Alloys F.A. Lewis, X.Q. Tong, R.V. Bucur and K. Kandasamy	161
Effect of Crystal Defects in FeNiC Alloys on Subsequent Martensitic Transformation X.Y. Song, N. Gu and H. Peng	165
Abstracts	1
