## Preface

<b>Diffusion in the Lattice and Interfaces of Real Engineering Materials: A Unified Approach</b> D. Gupta	1
<b>The Lattice Monte Carlo Method for Solving Phenomenological Mass and Thermal Diffusion Problems</b> I.V. Belova, G.E. Murch, T. Fiedler and A. Öchsner	13
<b>Diffusion and Melting</b> G.P. Tiwari and R.S. Mehrotra	23
<b>Thermodynamic Diffusion Coefficients</b> G.B. Kale	39
<b>Novel Method of Evaluation of Diffusion Coefficients in Ti-Zr System</b> K. Bhanumurthy, A. Laik and G.B. Kale	53
<b>Diffusion in Cu(Al) Solid Solution</b> A. Laik, K. Bhanumurthy and G.B. Kale	63
<b>A Probabilistic Approach to Analyze Austenite to Ferrite Transformation in Fe-Ni System</b> G. Mohapatra and S.S. Sahay	71
<b>Recrystallization Kinetics in 17Cr 1Mo Ferritic Steel</b> M.N. Mungole, P.C. Trivedi, S. Sharma and R.C. Sharma	79
<b>Effect of Thermal Aging on the Transformation Temperatures and Specific Heat Characteristics of 9Cr-1Mo Ferritic Steel</b> B. Jeya Ganesh, S. Raju, E. Mohandas and M. Vijayalakshmi	85
<b>Gibbs Free Energy Difference in Bulk Metallic Glass Forming Alloys</b> H. Dhurandhar, K.N. Lad, A. Pratap and G.K. Dey	91
<b>Effect of Cerium Addition on the Microstructure and Mechanical Properties of Al-Zn-Mg-Cu Alloy</b> A.K. Chaubey, S. Mohapatra, B. Bhoi, J.L. Gumaste, B.K. Mishra and P.S. Mukherjee	97
<b><math>\delta</math>-Hydride Habit Plane Determination in <math>\alpha</math>-Zirconium at 298 K by Strain Energy Minimization Technique</b> R.N. Singh, P. Stähle, L. Banks-Sills, M. Ristinmaa and S. Banerjee	105
<b>Calorimetric Studies of Dissolution Kinetics of Ni<sub>2</sub>(Cr,Mo) Phase in Ni-Cr-Mo Alloys Using Non-Isothermal Approach</b> H.C. Pai, B.C. Maji, A. Biswas, M. Krishnan and M. Sundararaman	111
<b>Kinetics and Mechanism of Growth of <math>\beta</math>-Solid Solution during Reaction Diffusion in Binary Titanium and Zirconium Alloy Systems</b> G.P. Tiwari, O. Taguchi, Y. Iijima and G.B. Kale	117
<b>Effect of Cu Addition on Nanocrystallization Behavior in a Co-Based Soft Magnetic Metallic Glass</b> A.P. Srivastava, D. Srivastava, K.G. Suresh and G.K. Dey	125
<b>Alpha to Omega Transition in Shock Compressed Zirconium: Crystallographic Aspects</b> G. Jyoti, R. Tewari, K.D. Joshi, D. Srivastava, G.K. Dey, S.C. Gupta, S.K. Sikka and S. Banerjee	133
<b>Selection of Lattice Invariant Shear in Dilute Zr-Nb Alloy for bcc-hcp Martensitic Transformation</b> D. Srivastava, G.K. Dey and S. Banerjee	139
<b>Development of a Thermodynamic Criterion to Predict the Alloy Compositions for Amorphous and Nanocrystalline Phase Formation during Mechanical Alloying</b> N. Das, S.K. Pabi, U.D. Kulkarni, B.S. Murty and G.K. Dey	147
