

Table of Contents

Metals

Electronic States and Doping Effect of Carbon in the Kink of BCC Iron Z.C. Qiu, C.F. Xia and L.Q. Chen	1
A Study of the Variation of Monovacancy Formation Energy with the Parameter of Ashcroft's Potential and Different Exchange and Correlation Functions for Some Group-IIa and Group-VIII FCC Metals in the Active Divalent State A. Ghorai	11
Migration of Thermal Vacancies in Quenched Pure AA1050 by Positron Annihilation E.A. Badawi, M.A. Abdel-Rahman, E.M. Hassen, M. Abdel-Rahman and M.O. Abdel-Hamed	19
Spectrum Analysis of Acoustic Emission Signal Obtained during Breakaway Oxidation of 2.25Cr-1Mo Steel B.B. Jha, B.K. Mishra and S.N. Ojha	27
Determination of Hydrogen Diffusivity in Rail Steels by Sub-Scale Microhardness Profiling Technique A. Moon and R. Balasubramaniam	41

Ceramics

Heat Treatment of Bi(Pb)-Sr-Ca-Cu-O Thin Films Prepared by Pulsed Laser Deposition A.N. Jannah, S.A. Halim and A. Huda	47
Effect of Heat Treatment on the Structural, Morphological and Optical Properties of Tin-Doped ZnO (x=0.0 and x=0.05) Thin Films A. Huda, M.N. Norazia, S. Shaari and A.A. Khadum	53
Structural and Morphological Studies of TiO₂ Films for Dye-Sensitized Solar Cell Applications A. Huda, A.S. Rini, M.Z. Ya and M.A. Yarmo	63
Structural and Morphological Studies of Porous ZnO for Dye-Sensitized Solar Cell Applications A. Huda and P.A. Nugroho	67
Theoretical Investigations of the Spin Hamiltonian Parameters and Defect Structure for Pt³⁺ in MgO Y.X. Hu, S.Y. Wu, X.F. Wang and L.L. Li	71
Chemical Precipitation Synthesis and Magnetic Properties of Hematite Nanorods Q.L. Li, Y.F. Wang and C.R. Zhang	77
Relationship Study among Nanocrystallite Distribution and Roughness of a Nanostructured Hard Layer M. Aliofkhazraei and A.S. Rouhaghdam	83
Non-Ohmic Behavior of Some ZnO Ceramic Defective Ions with Different Valences M. El-Hofy	91
Effect of Molarity of Precursor Solution on Nanocrystalline Zinc Oxide Thin Films G. Singh, S.B. Shrivastava, D. Jain, S. Pandya and V. Ganesan	99

Semiconductors

Effect of Bi Additions upon the Physical Properties of Germanium Telluride Glassy Semiconductors A. Sharma and P.B. Barman	107
Photo-Induced Relaxation Self-Oscillations of Stripe Structures in FeBO₃ A.V. Chzhan, G.S. Patrin and I.N. Isaeva	113
Abstracts	119
