

Table of Contents

Preface

Chapter 1: Advances in Concrete

Evaluation of the Effect of Impregnation Coatings on Concrete Protection L. Sedlaček, J. Fládr and I. Broukalová	3
Usability of the Combination of Fly Ash from Different Species M. Meruňka, P. Šperling, M. Ťažký and R. Hela	11
3D Printed Cement Composites Testing D. Jancarikova, I. Khongova, P. Bibora and H. Szklorzova	17
Comparison of Concrete Mixtures and Alkaline Activated Material with Regard to Selected Properties for Structural Design J. Jeřábek	25
Replacement of Fine Aggregates in Fine-Grained Concrete by Waste Material from Cetris Boards Production K. Matýsková, V. Bílek, L. Procházka, R. Hédlová and M. Horňáková	31
Selected Mechanical Properties of Concrete with Regard to the Type of Steel Fibers R. Gandel	39
High Performance and Ultra-High Performace Fibre Reinforced Concrete with Stabilized Homogeneity L. Musil, J. Vesecký, J. Kubát and J. Vodička	45
Rheological Properties and Segregation of Fresh UHPC with Fibers Affected by Initial Temperature of Concrete Mix T. Bittner, K. Hurtig and D. Jiroutova	53

Chapter 2: Composite Materials and Structures

Mechanical Properties of Luffa Fiber Reinforced Recycled Polymer Composite H.T.N. Kuan, M.K. Afiz and S.J. Lumpong	63
Research on the Influence of Humidity on the Manufacture of GFRP Vessels in the Equatorial P. Townsend, C. Astudillo, K. Larrea and J.C. Suárez	69
Composite Conductive Carbon-Polymer Paints as a Replacement for the “Faraday Cage” V. Barsukov, I. Senyk, B. Haliuk, Y. Kuryptia, V. Khomenko, O. Butenko, O. Chernysh, I. Makyeyeva, M. Sucheá and E. Koudoumas	75

Chapter 3: Materials for Optoelectronics

Light Extraction Efficiency Enhancement of White Organic Light-Emitting Diodes (OLEDs) by Micro/Nano-Patterning the Substrate Layer M.S. Ahsan, M.A.I. Arafat, T. Akter, I.B. Sohn and H.K. Choi	85
--	----

Chapter 4: Materials in Thermal Engineering Applications

Numerical Analysis of Non-Sphericity of Particles of Powder Material and their Effect on Packing Structure for Concentrated Solar Power Applications A. Boribayeva, X. Gvozdeva and B. Golman	109
Improving the Thermo-Physical Properties of Plam Oil with Zeolite Nanoparticles P. Assawasaengrat, T. Limsakul, P. Bunprasert, W. Chokelarab and P. Sriprom	115
Halloysite Nanotube (HNT) Dispersion Stability in 10% Ethanol-Water Mixture and Water A.Z.F. Dilidili, J.B. Habiling, P.E.C. Maglalang and J.C. Millare	121
