|                                                                                                                                                                                 |    |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| <b>Numerical Study of a Williamson Fluid Past a Semi-Infinite Vertical Plate with Convective Heating and Radiation Effects</b><br>C. Amanulla, A. Wakif and S. Saleem           | 1  |
| <b>Viscous Dissipation Effect on Heat Transfer Through Nano Fluid in a Vertical Wavy Channel with Travelling Thermal Wave</b><br>P.V. Ramana, G. Srinivas and G.V.P.N. Srikanth | 17 |
| <b>Computational Fluid Dynamics (CFD) for Modelling Multiphase Flow in Hilly-Terrain Pipelines</b><br>O. Olabode, G. Egeonu, R. Afolabi, C. Onuh and C. Okonji                  | 33 |
| <b>Influence of Radiation and Chemical Reaction on MHD Casson Nanofluid on a Stretching Sheet</b><br>V. Seethamahalakshmi, C.V.R. Murthy and G.V.R. Reddy                       | 57 |
| <b>Blowing Ratio Effect on Film Cooling Performance for a Row Holes Installed in Different Trench Configurations</b><br>K. Boualem and A. Azzi                                  | 65 |
