

Table of Contents

Preface

Chapter 1: Measurements, Sensing and Monitoring

Convolutional Neural Network for the Detection of Cocoa Maturity with an Approach for the Analysis of Images Captured at Different Distances J.A.M. Rivera and A.M. Reyes-Duke	3
Low Cost CO2 Sensor Prototype with IoT E.A. Galindo Talhami, O. Aguiluz and M. Martínez-Rangel	9
Development of a Web-Based Diagnostic Tool Using Acoustic Testing and Computer Vision E.E. Cardona, A.A. Rodríguez Zepeda and A.M. Carrasco Bardales	21
Synaptic Weights in a Neuromemristive Radioisotope Classifier J.I. Canales-Verdial	37

Chapter 2: Robotics

Gesture-Based Control of an OMRON Viper 650 Robot G.A. Alvarado García and F.E. Núñez Rodríguez	49
The Use of the Internet of Things in Robotics (IoTR) I.A. Magomedov, M.M. Matygov and U. Mochiev	61
Design and Development of a Soft Pneumatic Gripper for Precise Grasping of Fragile Objects A.A. Kattan Urrutia and A.M. Carrasco Bardales	69

Chapter 3: Engineering Management

Teaching Entrepreneurship in Civil Engineering and Architecture: Self-Diagnosis of Competencies in University Professors V.A. Ochoa, H. Osorto and A.S. Rodriguez	85
Evaluation of Neural Network and Logit Models for Classification of Default in Banking Loans W.J. López Flores	97
Analysis of Variation in Coffee Cupping Tasting in Different Environments J.C. Guerra, L. Guardiola, J. Alvarado and M.E. Perdomo	109
Coastal Fouling Impact in Solar Modules Efficiency in the Atlantic Region of Honduras D.L. Terreros-Martínez and A.M. Reyes-Duke	121
