

# Table of Contents

## Preface

## Chapter 1: Modeling and Computational Research in Engineering

### **A Finite Element Analysis of the Pedicle Screw Displacement on Spine Implant with Varying Frictional Contact**

W. Weriono, H. Dahlan, E.S. Roni and M. Rusli 3

### **Fracture Initiation and Development of Road Marker Subjected to Impact Loading**

M. Muttaqin, B. Syam, M. Yani, A. Putra, M. Pangestu, M. Sabri and M.A. Hadi 15

### **Redesigning Motorcycle Helmet Using Ergonomic Function Deployment (EFD) Method among University Students in Aceh Barat Regency**

S. Wahidin, I. Hasanuddin, M. Iqbal and S. Rahmawati 23

## Chapter 2: Production Management and Quality Control

### **Agent-Based Modelling and Simulation: A Systematic Framework and its Application in the Manufacturing Sector**

I. Kurniawan 35

### **Incorporating Time and Motion Analysis into Modular Arrangement of Predetermined Time Standard**

C.I. Erliana, I. Hasanuddin, Y. Away, R.A. Raja Ghazilla and R.R. Maisaroh 43

### **The Characteristics of Moisture and Hardness of the Coffee Bean with Different Treatment Related to Roasting and Storage Time: Study Case from Coffee Arabica and Coffee Canephora**

M. Mudjijana, M. Kusni, M.A. Wirasena, A.D. Nugraha, S. Darmanto, S. Das, A.D. Nugroho, D. Alandro, M.A. Ramadhan, M.I. Rashid, R.A. Himarosa and M.A. Muflikhun 57
