

Preface

The Organizing Committee would like to present this selection of research papers from the “The 6th International Symposium on Infrastructure Development (ISID-6 2023)”. The symposium expressed our concern for establishing and developing aspects related to sustainable infrastructure and environmental development. The ISID-6 was held by the Department of Civil Engineering – Universitas Hasanuddin, Indonesia, in collaboration with Saga University, Universiti Teknologi Malaysia, Universitas Indonesia, Institut Teknologi PLN, Universitas Kristen Indonesia Toraja and Universitas Khairun Ternate.

This conference was a plenary session and a presentation of invited speakers from different countries. The ISID-6 was successful and gave benefits to all stakeholders worldwide.

This edition includes selected papers focused on topics:

- Wastewater Treatment Road Pavement
- Hydrodynamics in Water Resources Management
- Geotechnical Engineering
- Safety and Disaster Management

We would like to express our sincere thanks to the scientific committees, reviewers, and all participants. The acknowledgement is especially addressed to invited speakers, presenters, and moderators for this seminar.

On behalf of the Organizing Committee of the ISID-6 2023
