

Table of Contents

Preface

Chapter 1: Water Treatment and Desalination

Characterization and Application of Calcium Alginate/Go (*Graphene Oxide*) for Adsorption Na⁺ and Cl⁻ Ions

K. Amin, A.A. Syah, A.R. Wijaya, S. Wonorahardjo and A. Aliyatulmuna 3

Activation of Biochar from Coconut Shell Using H₃PO₄ for Adsorption of NO₃⁻

N. Ikatasari, S. Wulandari, D. Indarti, D.S.P. Handoko and B. Piluharto 15

Synthesis of Dithizone Immobilized Chitosan-Silica as an Adsorbent of Cr Ions in Electroplating Liquid Waste

R. Sekaringgalih, A. Ahmad, M. Nizar, I. Rahmawati, B. Palupi, M. Muharja, M.F. Rizkiana and H. Khotimah 21

Utilization of Calcium Alginate Silica Based on Coral Skeleton and Wedi Awu Beach Sand as NaCl Adsorbent

A.I. Hafilah, A.A. Syah, A.R. Wijaya, I.K. Kusumaningrum and N. Zakia 33

Chapter 2: Functional Materials

Method Validation for Determination of Caffeine in Sidomulyo Robusta Coffee Beans Using Gas Chromatography-Flame Ionization Detector

S.F. Zahra, A. Asnawati, Z. Zulfikar, S. Siswoyo, T. Mulyono and Y.M. Mufliah 47

Steel-PLA Composite 3D Printing: Tensile Strength and Geometric Precision

M. Darsin, A.K. Damastian, G. Jatisukamto, H.A. Basuki, D. Djumhariant, R.K.K. Wibowo, D. Yudistiro and M.S. Hussin 57

The Effect of Gold Nanoparticles (AuNPs) on the Sensitivity of Potentiometric Cooper Sensors

Q. Fardiyah, A. Wiryanan, H. Sulistyarti, A.M. Anjani, N.A. Fatikasari and A.I. Ramadani 69

Effect of Electrodeposition Time on Capacitive Behaviour of Graphene-Zinc Oxide

R. Zakaria, S.Z.Z. Abidin and N.K. Jaafar 75

Optimal Thickness and Performance of Ppy/Go Gas Sensors for Coffee Aroma

T. Mulyono, Z.S. Ardyanti, Z. Zulfikar, S. Siswoyo, A. Asnawati and Y.M. Mufliah 85

Chapter 3: Biomaterials

Antibacterial Test of the CaTiO₃ Compound Obtained through Molten Salt Method

S.Q. Aeni, A. Maunatin and A. Prasetyo 101

In Silico Prediction of Sulforaphane and Iberin from *Brassica oleracea* as Potential Anticancer Agent

T.D. Ananda, A. Srihardyastutie and V.O. Azzahra 109

Chapter 4: Food Technology and Biotechnology

Potential of *Calophyllum Inophyllum* Shell as Activated Carbon for Cellulase Immobilization

S.S.A. Muzakhar, F.S. Elida, N.A. Sukma, F. Fahmi and S. Gunawan 123

Effect of Incubation Time and Filtrate Usage on Enzymatic Deproteination of Shrimp Wastes

I. Syahbana, P.K. Gianto, A. Sjaifullah and M. Reza 131

The Effect of Adding Pectin Derived from Cocoa Pod Husk Extract (*Theobroma cacao L.*) on Physical Properties, Chemical Properties and Digestibility of Cookies

A.A.I. Ratnadewi, A.A. Zahro, W. Handayani, A.B.T. Sari and A.A.N.N. Kusuma 139
