

Table of Contents

The Impact of Gas-Liquid Dispersed Flow on Heat Exchanger Performance with Improvement Using CuO Nanofluid M.M. Hathal, B.O. Hasan and H.S. Majdi	1
Research Effectiveness of Regenerat Brake Energy on Toyota Prius Vehicles by Matlab/Simulink M. Le and T.N. Van	23
Low Latency Extended Dijkstra Algorithm with Multiple Linear Regression for Optimal Path Planning of Multiple AGVs Network L.W. Chek	31
An Example of the Use of Photogrammetry for Archiving the Shapes of Natural Materials and Creations J. Udvaros and O. Takáč	37
Smart Contracts in Construction from Management to Materials: Acting as a Bridge between the Two N. Forman and J. Udvaros	43
