

## Table of Contents

|                                                                                                                                                                                                                                      |     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Dry Sliding Wear and High-Velocity Impact Behaviour of Spark Plasma Sintered Ti-Ni Binary Alloys</b><br>A.L. Rominiyi, M.B. Shongwe, E.N. Ogunmuyiwa, S.O. Jeje, S. Salifu, O.S. Adesina and P.A. Olubambi                        | 1   |
| <b>Numerical Simulation of Stress Relaxation and Creep Response of X20 Steam Piping under Diverse Operating Conditions</b><br>S. Salifu, D.A. Desai and S. Kok                                                                       | 19  |
| <b>The Effect of Boundary Conditions and Stacking Sequence on the Nonlinear Behavior of Laminated Composite Plates in Bending</b><br>M. Bellahkim, Y. Benbouras, A. Maziri, E.H. Mallil and J. Echaabi                               | 33  |
| <b>Influences of Zero Mass Flux and Active Conditions on the Predictions of Double Dispersion and Double Diffusive Boundary Layer in Darcy/Non Darcy Nanofluid Flow</b><br>A.M. Bouaziz, M.N. Bouaziz and A. Aziz                    | 49  |
| <b>Analysis and Numerical Simulation of no Reacting Swirling Flow by Using URANS Approach</b><br>M. Habib and S. Mohammed                                                                                                            | 67  |
| <b>Dredged Dam Raw Sediments Geotechnical Characterization for Beneficial Use in Road Construction</b><br>A. Larouci, Y. Senhadji, L. Laoufi and A. Benazzouk                                                                        | 81  |
| <b>Performance of Recycled Aggregate Concrete Made with Waste Refractory Brick</b><br>M. Khattab and S. Hachemi                                                                                                                      | 99  |
| <b>Mechanical Properties of Granite-Gravel Porous Concrete</b><br>S.O. Odeyemi                                                                                                                                                       | 115 |
| <b>Experimental Study of the Mechanical Behaviour of Brick Waste Concrete and Analytical Prediction of its Elastic Modulus as a Three-Phase Composite Material</b><br>W.B. Achour, S.E.E. Khay, K. Miled and J. Neji                 | 125 |
| <b>Anthropogenic Carbon Aerosol Induced Carbonation in Reinforced Concrete: Deterioration Effects on Mechanical Properties</b><br>O.E. Babalola, P.O. Awoyera, D.H. Le, O.B. Olalusi and S.K. Bhagat                                 | 139 |
| <b>A Mathematical Model Development for Simulating Nitrate Pollutant Transport along a River</b><br>K.O. Olowe and M. Kumarasamy                                                                                                     | 149 |
| <b>Effect of Moisture Content on Sunflower Seed Physical and Mechanical Properties</b><br>K.A.M. Ali, W.Y. Zong, L. Yang and H.M.A. El-Ghany                                                                                         | 169 |
| <b>Design and Simulation of an Off-Grid Photovoltaic System with Duty Cycle Prediction Using Neural Network Controller</b><br>A.M. Zungeru, D. Duncan, B. Diarra, J. Chuma, M. Mosalaosi, B. Mtengi, J. Gaboitaolelwe and C. Lebekwe | 181 |
| <b>A Priority List-Based Binary Crow Search Algorithm for Unit Commitment Problem</b><br>A.A.A. El Ela, R. El-Sehiemy, A.M. Shaheen and A.S. Shalaby                                                                                 | 211 |
| <b>Multi-Source Hybrid Energy Harvesting Wireless Sensor Network Framework for Addressing Energy Unpredictability Issues</b><br>A. Paul and I. Pandey                                                                                | 225 |
