

Table of Contents

Experimental Investigation to Optimize Build Orientation and Raster Angle for PLA and ABS Specimens Generated by FDM Technology A. El Azzouzi, H. Zaghar, L. Lasri and N. Moujibi	1
Application of the AM2 Model to Simulate Anaerobic Digestion of Municipal Solid Waste A. Hajji, Y. Louartassi, M. Garoum, N. Laaroussi and M. Rhachi	21
Valorization of Moroccan Hemp Waste: Study of the Possibility of its Use in Thermal and Acoustical Insulation of Buildings O. Zine, D. Taoukil, M. Ouakarrouch, I. El Abbassi, E.H. Kadri, M.I. Lahlaouti and A. El Bouardi	35
Optimum Shear Walls Distribution in Framed Structures for Buildings Subjected to Earthquake Excitations N. Djafar-Henni and R. Chebili	55
Laboratory Geotechnical Investigations on Five Silty Soils Sampled along the Banks of the Lubumbashi River/Haut-Katanga/DR Congo Y. Kiyukeno, G. Mukoko and B. François	73
Float Photovoltaic Module Prototype: Design, Simulation, and Electrical Performance Analysis T. Zarede and H. Lidjici	91
Performance Evaluation of Hydroponics Control Systems for pH, Temperature, and Water Level Control M. Rathedi, O. Matsebe and N.M.J. Ditshego	105
Overall Equipment Efficiency Improvement through a Lean Approach in SME: A Case Study A. Dahab, M. Abdulwahed Younes and S. Backar	117
