

Table of Contents

Optimizing Compressed Natural Gas Energy Marketers' Profitability in Nigeria Using an Integrated Model A.U. Anieze, O.S.I. Fayomi and D.E. Ighrawve	1
Process Optimization of Oil Extraction from African Walnut (<i>Tetracarpidium Conophorum</i>) Seeds for Bio-Based Coating Applications A.T. Opobiya and R.A. Busari	15
Development and Evaluation of a Solar-Powered, Pneumatic-Assisted Cowpea Grading Machine for Improving Postharvest Processing in Smallholder Agro-Enterprises A.I. Oyebanji, A.T. Opobiya, O.A. Usman and N.N. Ikeorah	43
Heat Transfer Enhancement in a Gyroid-Structured Compact Heat Exchanger Using Computational Fluid Dynamics S. Chtourou, S. Hammami, J. Hamden, F. Kriaa, M.A. Abidi, G. Mahdi and M. Baccar	59
H-Infinity-Based Flow Control Method for a Centrifugal Pumping System via Speed Regulation S. Zhou, Z.Y. Fang, C. Chen and Y.W. Wang	81
Fuzzy Incremental PID Control for Overshoot Reduction of Molten Level Regulation in Top Side-Pouring Twin-Roll Casting J.P. Xue, D.P. Xuan and Y.Q. Wu	101
Determination of Optimum Wavelength from Absorption Characteristics for Underwater Visible Light Communication in Atlantic Ocean S. Iyebaje, A.A. Ponnle and K.B. Adedeji	119
Impact of Plastic Waste, Lime and Cement on the Strength Properties of Laterite Soil for Sustainable Pavement Construction S. Adedokun, G. Olaleye and A. Apatira	137
Effect of Stabilizers and Compression Pressure on Mechanical and Shrinkage Properties of Sustainable Compressed Earth Blocks S. Ellouze, H. Trabelsi, O. Mezghanni and A. Daoud	157
Developing Eco-Friendly Concrete Using Recycled Aggregate Pre-Soaked in Blended Cement-Calcined Clay Slurry with Incorporation of Kenaf Fibre O.M. Olofinnade and D.O. Taiwo-Abdul	177
