

Table of Contents

Carbon Nanofibers Grown <i>In Situ</i> on Porous Glass M.A. Mazo, J. Sanguino, A. Tamayo and J. Rubio	1
Effect of Synthesis Temperature on Particles Size and Morphology of Zirconium Oxide Nanoparticle R. Sigwadi, M.S. Dhlamini, T. Mokrani and P. Nonjola	18
Rod-Like Rutile Nanoparticles: Synthesis, Structure and Morphology V. Kotsyubynsky, I. Myronyuk, V. Chelyadyn, A. Hrubak, V. Moklyak and S. Fedorchenko	32
Determination of the Growth Rate of Hydrothermally Synthesised ZnO₂ Crystallites M. Egblewogbe, G. Gebreyesus and S.A. Atarah	41
Fabrication of Quantum Dots Light Emitting Device by Using CdTe Quantum Dots and Organic Polymer A.M. Kadim	48
Influence of Stabilizer on the Microstructures and Photocatalytic Performance of ZnO Nanopowder Synthesized by Sol-Gel Method X.N. Xu, Q.P. Zhang, B.T.M. Ong, H. Yuan, Y. Chen, Y.T. Liu and M. Xu	57
A Smart Hydrothermal Synthesis for Cobble-Like Porous CeO₂ and their Superior Catalytic Performance for NH₃-SCR of NO_x X.F. Niu and F.R. Tu	72
Needleless Electrospinning System, an Efficient Platform to Fabricate Carbon Nanofibers H. Samadian, H. Mobasheri, S. Hasanpour and R. Faridi-Majid	78
Increased Operating Properties of Cutting Ceramics by Application of Nanostructured Multilayer Wear-Resistant Coating A.A. Vereschaka, M. Volosova, A.A. Krapostin, A. Batako and A.E. Seleznev	90
Synthesis and Machining Characterization of Copper-Multiwalled Carbon Nanotubes-Graphene Hybrid Composite Using SEM and ANOVA S. Nallusamy, M.R. Narayanan and J. Logeshwaran	105
Pressure-Driven Gas Flow through Nano-Channels at High Knudsen Numbers S. Karakitsiou, B. Holst and A.C. Hoffmann	116
