|                                                                                                                                                                                                                                                                                                 |     |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Rapid Exfoliation of Hexagonal Boron Nitride in a Less-Volatile Co-Solvent with a High Dispersion Concentration</b><br>A. Uysal, L.M. Dogdu, S. Gozonunde and S. Kinayyigit                                                                                                                  | 1   |
| <b>Morphological Control of Silicon Nanowire Arrays Formed by Metal-Assisted Chemical Etching Method</b><br>S.Y. Zhang, D.S. Wei, B.E. Zhang, B.Y. Yang, D.F. Sun, H.D. Yu, K.Z. Jiang, B.F. Wang, Y.Z. Wu, Z.X. Wang, Q.B. Li, L.H. Wang, L. Zhang, G.D. Wang, S.Z. Wang, Y. Zhang and Q.J. Xu | 15  |
| <b>Tuning the Optical Properties of CuO/TiO<sub>2</sub> Nanocomposites by Carbon Ions Beam Irradiation</b><br>U. Muneer, S. Honey, K. Makgopa, J. Ahmad, M. Maaza and N. Arif                                                                                                                   | 35  |
| <b>Preparation of Co<sub>3</sub>O<sub>4</sub>/In<sub>2</sub>O<sub>3</sub> Nanobundles and Their High Formaldehyde-Sensitive Properties</b><br>X.D. Wang, W.G. Wang, J.M. Zhou and Y.P. Zhang                                                                                                    | 51  |
| <b>State-Resolved Investigation of Optical Gain and Exciton Dynamics in CdSe Quantum Dots</b><br>X.Y. Zhu, M.Q. Liao, Y.T. He, Z.T. Wang and B. Li                                                                                                                                              | 67  |
| <b>Engineering of Structural Phase Transition and Electrical Conductivity of Cadmium-Doped CZTS Films via the Direct Isometric Substitution</b><br>M. Al-Shakban and S.A. Neamah                                                                                                                | 77  |
| <b>Influence of RF Power on the Physical Properties of ZnTe Thin Films</b><br>M. Baali, S. Elmassi, M. Ourbaa, N. Lebrini, M. Bousseta, H. Dahabi, S. Drissi, A. Ammar, A. El Kissani, A. Narjis, L. Nkhaili and M. Beraich                                                                     | 89  |
| <b>Green Synthesis and Characterization of Ag@TiO Core–Shell Nanoparticles with Enhanced Antibacterial Activity</b><br>B.K. Al-Rawi, O.A. Ahmad, M.A.M. Al Saadi and S.K. Omar                                                                                                                  | 103 |
| <b>Phyto-Mediated Synthesis of Pure and Silver-Doped Zinc Oxide Nanoparticles Using <i>Stachytarpheta Jamaicensis</i> Leaf Extract: Optical, Morphological and Antibacterial Properties</b><br>K.S.R. Bartolome, R.B.J.S. Lagitnay and C.P. Patacsil                                            | 115 |
| <b>Rotational Speed and Torque of Axial-Flux Motor Using Sintered Iron Nano-Polycrystalline Body</b><br>H. Koyakata, H. Osawa, T. Saiki and M. Inada                                                                                                                                            | 133 |
