

# Table of Contents

## Preface

## Chapter 1: Turning and Forming of Structural Metals

<b>A Mechanistic Cutting Force Model for Thin-Wall End Face Turning Operation</b> P. Borthakur and T.C. Bera	3
<b>Experimental Investigation on the Mechanical Properties and Formability Analysis of Stainless Steel 316 Thin Sheets at Different Annealing Temperatures</b> K.S. Naidu, R. Datta and M. Bhargava	11
<b>Influence of Process Parameters on Forming Forces in Single Point Incremental Forming of Commercially Pure Titanium</b> R. Kumar, A. Singh and G. Kumar	19

## Chapter 2: Metal Welding

<b>Prediction of Mechanical Shear Force of Friction Stir Spot Welded Joints Using Neural Network System</b> H.A. Abdel-Aleem, A.M. Gaafer, A.M. Hanafy and E.H. Mansour	31
<b>Influences of Filler Metals on Microstructure and Mechanical Characteristics of GTA Weld Carbon Steel/ Austenitic Stainless Steel Dissimilar Metal Joint</b> W. Saka, T.F. Lawal and M.O.H. Amuda	41
<b>Interfacial Temperature Variation in Friction Stir Lap Welding of AA7075</b> N. Kumar and A. Bhattacharya	57

## Chapter 3: Corrosion and Surface Treatment

<b>A Review of Corrosion Threat in Marine Industry</b> O. Odunlami, M. Fajobi, U. Nnaji, U. Abigail, T. Gawati, O. Temitayo and H. Adisa	67
<b>Effect of Palm Kernel Shell Reinforcement on the Mechanical and Corrosion Properties of AA7075 Aluminium Alloy</b> O.O. Joseph, J. Atiba, S. Ante, O.O. Joseph and S. Eyenuro	79
<b>Effect of Carburization Time and Carburization Temperature on Carburization of Mild Steel Using Carbon Nanotubes Obtained from a Horizontal CVD Reactor</b> A.S. Hassan, A.S. Afolabi and M.O. Daramola	89

## Chapter 4: Improvement of Technologies and Technological Equipment

<b>Setup Time Reduction: A Case Study of a Wire Coating Extruder Machine</b> P. Wisetwoharn, A. Vanichchinchai, D. Sumrit and S. Kitchot	101
<b>Investigation of Bamboo Powder Self-Adhesive Molding Method Using Semiconductor Laser for Additive Manufacturing</b> K. Tanaka, R. Kitazaki, N. Yutaro, M. Nakagawa, T. Hirogaki, E. Aoyama and H. Nobe	107
<b>Estimation of End-Milled Surface by Machine Tool Equipped with an Idling-Stop Function in a Feed Driving System</b> Y. Tada, R. Imai, M. Nakagawa, T. Hirogaki and E. Aoyama	115
<b>Influence of Glass Cloth in Build-Up Layer on Cu Direct Laser Via-Hole Drilling for Multi-Layer Printed Wiring Boards</b> T. Fujimoto, S. Nowatari, M. Nakagawa and T. Hirogaki	123
