

Table of Contents

Preface

Chapter 1: Processing of Structural Metals

The Effects of MQL Pulse Parameters on Cutting Force, Cutting Temperature and Surface Roughness in Turning Process

A.O. Demir, Y.F. Yapan and A. Uysal 3

Effect of Cooling Rate on the As-Cast Microstructure of a High Strength Steel Produced in a Large Size Ingot

A. Loucif, D. Shahriari, K. Chadha, C.P. Zhang, J.B. Morin and M. Jahazi 9

Chapter 2: Surface Treatment and Tribology

Increasing the Corrosion Resistance of Structural Steels Using Plasma Nitriding

L. Timárová, A. Breznická, P. Mikuš and M. Jus 17

Use of Integral Characteristics in the Evaluation of Surface Texture of Components after Plasma Nitriding

D. Dobrocký, Z. Studeny, J. Procházka, Z. Pokorný and J. Viliš 27

Exploring the Influence of Variations in Distance Levels to Dielectric Barrier Discharge Plasma on Surface Energy and Fluorescence Modifications in Shape-Stable Aluminum Alloys and Shape-Instable Unvulcanized Rubber Blends

R. Janík, S. Ďurišová, I. Papučová, P. Skalková, M. Krbata, M. Kohutiar, S. Lokšíková, O. Novosádová and K. Moricová 41

Magnetic Field-Assisted Ultrasonic Nanocrystal Surface Modification of Titanium Alloy

Y.X. Ye, Y. Zhang, C. Tang, L.J. Xu and C. Ye 57

Effect of Frequency on Selected Properties of Wc HiPIMS Coatings Deposited Using a Mixture of Ar+Kr as Working Gas

D. Kottfer and P. Klučiar 65

Monitoring the Soft Sludge and Water Content of Hydraulic Oil Samples Using Drop Analysis

A. Breznická, P. Mikuš, L. Timárová and M. Jus 73

The Influence of Heat Treatment of High-Strength Steels on the Change of Tribological Properties by the Ball on Flat Method

J. Escherová, M. Krbata, P. Klučiar, M. Jus, H. Chochlíková, K. Daniel and M. Polášek 85

Chapter 3: Industrial Engineering and Product Quality

Additive Manufacturing Section Image Features for Magnetic Processing Characteristics Prediction

L.K. Chang, T.W. Chang, J.C. Huang, D.Q. Liu, M.C. Tsai and M.H. Horng 99

Utilizing Six Sigma for Effective Pore Defect Reduction in Plastic Water Tanks

P. Kankaew and P. Chutima 105

Chapter 4: Engineering Design

Design and Analysis of a Composite SACH Foot: Experimental Validation and Finite Element Modeling

N. Worajinda, J. Phromjan, R. Rugsaj, S. Phakdee and C. Suvanujumrat 115

Damping Ratio Estimation of Linear and Non-Linear Viscoelastic Materials Using Hilbert and Wavelet Analysis Techniques

A. Megahed, A.M.R. Fath El-Bab, H. Elhussieny and M.A. Hassan 121
