

Table of Contents

Preface

Chapter 1: Natural and Sustainable Building Materials

Influence of Relative Humidity on the Expansion Coefficient Rate of Bamboo Bundles P. Sawangbunditkun, I. Preechawuttipong and R. Peyroux	3
Influence of Relative Humidity on Elastic Modulus of Bamboo Bundle P. Sawangbunditkun, I. Preechawuttipong and R. Peyroux	9
Radiative Cooling Benefits of Materials Applied to the Steel Furnace Slag Use in Asphalt Pavement in a City S.H. Chen and C.H. Huang	15
Problems of the Formation of Dangerous Cr(VI) Compounds in Portland Cement and their Elimination Using New Refractories S. Logvinkov, O. Borysenko, M. Ivashchenko and O. Maksimenko	23

Chapter 2: Fire-Resistance and Fault Tolerance of Building Materials and Structures

Modeling the Thermal Effects of Fire on Steel-Reinforced Concrete Slabs with a Corrugated Profile S. Fedchenko, O. Nuianzin, V. Stepanenko and S. Vedula	33
Development of Numerical Methods for Determining the Bearing Capacity of Steel Floor Beams under High Temperatures O. Bashynskyi	41
Investigation of Thermal Damage and Structural Weakness in Concrete N. Rashkevich, V. Otrosh, I. Tyshchenko and S. Tsvirkun	49

Chapter 3: Advanced Biomass Applications

Enhanced Cadmium Adsorption Using Copper-Modified Biomass in Natural Rubber Latex Foam N. Sukhawipat, J. Upan, B. Sukkaneewat, Y. Wongnongwa and N. Sosa	61
Lauric Acid Adsorption Using HCl-Enhanced Rice Husk Ash: A Path to Waste Frying Oil Purification F.N. Othman, P.Y. Hoo, A.Z. Abdullah, Q.H. Ng, S.H. Shuit, S.K.E. Ab Rahim and J. Andas	67
Performance Assessment of Alkaline Earth Metal Silicates for Lauric Acid Removal: An Analytical Hierarchy Process (AHP) Approach Z.S. Zainal, P.Y. Hoo, A.L. Ahmad, A.Z. Abdullah, Q.H. Ng, S.H. Shuit, S.K.E. Ab Rahim and J. Andas	73
Biomass Characterization of Bolo (<i>Gigantochloa levis</i>) for Bio-Energy Applications: Proximate Analysis and Calorific Value Variation along the Culm C.R.S. Jimenez, C.R. Marqueses, A.R.P. Lapuz and J.K.A. Cruz	79

Chapter 4: Nanotoxicology and Nanosafety

Comparative Study of PAMAM G4NH₂-Ag and G4OH-Ag Nanocomposites on <i>Arthrospira platensis</i> after Various Conditions E. Gelagutashvili, T. Giorgadze, V. Bregadze and I. Khutsishvili	89
Influence of G4 Poly(Amidoamine)-Gold Nanocomposites on <i>Arthrospira platensis</i> E. Gelagutashvili, I. Khutsishvili, T. Giorgadze and V. Bregadze	97
