

Table of Contents

Preface

Chapter 1: Metallurgy and Processing of Steel and Alloys

New Electroslag Technology for Producing Manganese-Containing Titanium Alloys I. Protokovilov, V. Porokhonko and Y. Titkov	3
Effect of Chemical Composition and Heat Treatment on the Mechanical Properties and Electrical Conductivity of Al–Mg–Si Alloys with a Mg/Si Ratio of 1 N. Zakharova, M. Iefimov, V. Goncharuk, V. Kuprin, A. Sameliuk and O. Muzyka	11
Study of Temperature Dependence of the Contact Angle in the Liquid Tin–Tungsten Substrate System Y. Syrovatko and E. Shtapenko	19
Microstructure Characterization of a Dissimilar 14MoV6-3/T91 Weld after Long-Term Service Exposure at 580°C V. Vodárek, R. Palupčíková and P. Váňová	27
Evaluation of the Operational Degradation of ESW Pipeline Welds Z. Vávrovcová, Z. Veselka and J. Bajer	35
Evaluation of Interface between Alumina Dispersion Strengthened Copper Composite and Precipitation Strengthened Copper F. Kromka, O. Milkovič, J. Szabo, K. Ďurišínová, J. Ďurišin and I. Pethryshynets	41

Chapter 2: Green Building Materials

Mechanical Evaluation of Adobe Reinforced with Wool and Corn Husk Fibers for Rural Housing A.C.C. Cabanillas, V.C. Espinoza Julcapoma and C.A. Eyzaguirre Acosta	49
Effect of Waste Type and Bio-Resin Addition on Flexural Strength of Constructional Composites: A Full Factorial Experimental Design Study H. Sezgin and I. Yalcin-Enis	61
Optimization of Thermal Insulation and Air Permeability of Recycled Polyamide-Based Fibrous Building Panels through Full Factorial Experimental Design I. Yalçın-Eniş and H. Sezgin	69
A Review of Mycelium-Based Composites as a High Fire-Rated Construction Material A. Akintunde, F. O'Flaherty and O. Ojedokun	75
Study of the Mechanical Behavior of Adobe Stabilized with Crushed Barley Straw R.C. Sheddan and F.L. Fernandez Da Silva	83
Comparative Analysis on the Flexural Performance of Concrete Reinforced with Abaca Fiber, Banana Fiber and Ramie Fiber K.D. Marcos, M.G. Calamba, M.J. Alfredo Jr. and M.M.C. Rodriguez	89
Synthesis of Additive Modifiers to Enhance the Performance Properties of Asphalt Concrete A. Meymaryan and N. Chilingaryan	97

Chapter 3: Structural Engineering

A Proposed Design of Disaster-Resilient Housing by Adopting Botong Bamboo (<i>Dendrocalamus latiflorus</i>) in Davao Oriental J.G. Recorte, R.M.D. Jusain, J.D.P. Bisnar, M.M.C. Rodriguez and K.D. Marcos	105
Bending and Buckling Performance Analysis on Structure of a 2D Honeycomb Lattice Pocket Beam M.U. Uysal	113
