

Table of Contents

Preface

Chapter 1: Additive Manufacturing

The Machinability of Ti-6Al-4V Fabricated by Laser Powder Bed Fusion with Different Build Orientations in Thermal Assisted Machining C. Zhang, G.X. Li, W.C. Pan, J. Mo and S.L. Ding	3
Investigation of 3D Printing Parameters on Cooling Rate, Crystallinity, and Tensile Properties of Recycled Polyethylene Terephthalate Z. Zakaria, A. Rochman and P. Refalo	13
Comprehensive Nonlinear Vibration Analysis of PLA Cantilever Plates: Analytical, Numerical, and Experimental Approaches M.N.A. Ab Patar, M.H.D. Ahmad, M.S. Ismail and L. Nurahmi	25

Chapter 2: Biodiesel

The Role of Nanoparticle Additives in Droplet Combustion of Biodiesel Blend Fuel : A Review P.I. Purboputro, M. Effendy and S. Subroto	39
The Role of CaO Additive in Biodiesel a Review S. Subroto, M. Effendy and P.I. Purboputro	47
Comprehensive Review of the Chemical Reactivity of B40 in Premixed Combustion Systems: Integration of Molecular Simulations and Thermal Experiments C. Hardiyanto, S. Supriyono and N. Aklis	55

Chapter 3: Materials and Technologies for Pollutants Removal and Water Treatment and Storage

Preparation of Activated Carbon from Juvenile Durian Fruit by Activating KMnO₄ for Methylene Blue Adsorption P. Assawasaengrat, W. Chokelarb, W. Narkrugsu and P. Sriprom	65
Comparative Photocatalytic Performance of Pullulan-Assisted Copper Oxide, Zinc Oxide, and their Composites for Methylene Blue Degradation E.D. Mohamed Isa, Y.L. Tang and N.W. Che Jusoh	71
Cu/Mn Oxidation Catalyst Integration into Recycled Carbon Fiber-Based Filter for Diesel Soot Emission Control R.J.I. Tamargo, A.H.P. Dumrigue, K.N.Q. Cada, R.D. Carcer and A.A.M. Serrano	77
Modular Integration of 3D-Printed Solar-Driven Interfacial Evaporation System for Enhanced Water Purification Efficiency A.S.M. Torres, G.P. Lagman, T.M.G. Manalaysay, J.D. De Villa, M.T. Gamboa, A.R.N. Nisay, M.V. Villablanca, B.B. Tamparong, L.D. Tijing and J.R.C. Dizon	87
Fabrication of Eggshell Membrane-Templated CuO-ZnO Nanocomposite for Microbial Desalination Cell E.S. Magas, R.A.S. de los Reyes, G.E.G. Trovela and S.M.C. Repunte	95
Synthesis and Performance Evaluation of Chitosan-PEG-Cellulose Acetate Nanofiltration Membrane for Calcium Removal in Groundwater E.S. Erasga, D.P. Tolentino, J.C. Valenzuela and R.D. Veyra	103
The Efficiency of Walnut Shells Filter in the Removal of Cooking Oil Residues from Domestic Kitchen Wastewater Z.H. Ali, A. Z. Al-Qaisi, M.A. Al Yousif and D.H. Musa	113
Effects of Storage Temperature and Sunlight Exposure on the Physiochemical Properties of Bottled Drinking Water A.K. Kareem, I.F. Hadi, F.J. Sarhan, G.A. Mohammed, H.S. Mahdi, H.A. Hassan and N.A.R. Issa	121

Influence of pH on Nitrate Removal from Groundwater Using Shredded Tire Rubber A.M. Khalid and H.A.K. Karaghool	145
Comparative Evaluation of <i>Fittonia argyroneura</i> and <i>Syngonium podophyllum</i> in Phytoremediation of Synthetic Domestic Wastewater under Different Contact Times A.I. Abdulkareem and H.A.K. Karaghool	151
