

Table of Contents

Improvement in the Accuracy of Fatigue Life Prediction	
A. Buch	1
Abstracts: Non-Ferrous Alloys	49
Abstracts: Ferrous Alloys: Pure Iron; Simple Alloys; Carbon Steels; Cast Iron; Low-Alloy Steel; High-Alloy Steel	111
Abstracts: Oxides: Simple Oxides; Spinels, Garnets, and other Complex Oxides	151
Abstracts: Carbon and Carbides	161
Abstracts: Nitrides	165
Abstracts: Novel Materials: Metallic Glasses; Eutectic Composites	167
Abstracts: General References: Brittle Fracture; Creep; Ductile Fracture; Elastic Constants; Elastic Deformation and Yield Point; Environmental Effects; Fatigue; Hardness; Irradiation Effects; Plastic Deformation and UTS	171
Book Reviews	195
