ISBN(softcover): 978-0-87849-909-0 ISBN(eBook): 978-3-0357-0408-2

Table of Contents

Foreword

The Future for Multicomponent SiAlON Ceramics
K. Liddell and D.P. Thompson 1

Controlling Grain-Boundary Phases in α-SiAlON Containing Material
A. Rosenflanz 11

Compositional Design of Multi-Cation α-SiAlON Ceramics Containing Calcium
P.L. Wang, W.W. Chen, C. Zhang and D.S. Yan 21

Incorporation of Cerium Ions into α'-SiAlON
F.F. Xu, Y. Bando, C.M. Wang and M. Mitomo 31

O1-SiAlON to O-SiAlON Phase Transformation Studied using Spark Plasma Sintering
G.C. Barris, Z. Shen, M. Nygren and I.W.M. Brown 37

Phase Relationships in Neodymia and Ytterbia Containing SiAlONs
S. Holzer, H. Geßwein and M.J. Hoffmann 43

New High-Pressure Phase of SiAlON
T. Sekine, H. He, T. Kobayashi, M. Tansho and K. Kimoto 49

Ordering of Oxygen and Nitrogen in J-Phase $Lu_4Si_2O_7N_2$
J. Takahashi, H. Yamane, Y. Yamamoto, N. Hirosaki, M. Mitomo, K. Oikawa, S. Torii, T. Kamiyama and M. Shimada 53

The Design of Compositions for Multi-Cation Doped α-β SiAlON Ceramics by the Rietveld Method
S. Kurama, M. Herrmann and H. Mandal 59

Development of Tough α-SiAlON
I.-. Chen, R.A. Shuba and M.Y. Zenotchkine 65

Effect of Seed Addition on the Formation of α-SiAlONs
M. Mitomo, C.M. Wang, F.F. Xu, N. Hirosaki and Y. Bando 79

Synthesis of Ca-α SiAlON Hollow Balls
K. Komeya, J. Tatami, M. Hotta, C. Zhang, T. Meguro and Y.B. Cheng 87

Synthesis, Densification and Properties of SiAlON Bodies and Composites
I.W.M. Brown, G.C. Barris, M.E. Bowden, K. MacKenzie, C.M. Sheppard and G.V. White 95

Fabrication and Evaluation of Ca-α SiAlON Nano Ceramics
J. Tatami, M. Iguchi, M. Hotta, C. Zhang, K. Komeya, T. Meguro, M. Omori, T. Hirai, M.E. Brito and Y.B. Cheng 105

Synthesis of Si_2N_2O Powder from Desert Sand by Nitriding Combustion Method
M. Radwan and Y. Miyamoto 111

Nano β-SiAlON Powder Synthesized by Carbothermal Reduction and Nitridation of Ultrafine Al_2O_3-SiO_2 Mixture Employing Sol-Gel Techniques
Q. Li, C. Zhang, K. Komeya, J. Tatami, T. Meguro and L. Gao 117

SiAlON-Boron Nitride Porous Composites: In Situ Synthesis, Microstructure and Properties
G.J. Zhang, J.F. Yang, M. Ando and T. Ohji 123

Microstructure and Property-Control in SiAlON-Containing Monolithic and Composite Ceramics
M.H. Lewis, N. Gajom, R. Dobedoe and A.H. Jones 129

Processing and Microstructural Evolution of Rare Earth Containing SiAlONs
M.J. Hoffmann and S. Holzer 141

Tailoring the Microstructures of SiAlON Ceramics by Manipulating the Kinetics
Z.J. Shen and M. Nygren 149

Microstructural Evidence for the Mechanism of the α↔β Phase Transformation in Ytterbium SiAlON Ceramics
J. Drennan and Y.B. Cheng 157

Preferential Orientation of SiAlON Grains in Reversible α'↔β' Phase Transformations
A. Carman, E.V. Pereloma and Y.B. Cheng 163

The Effect of Different Nucleation Temperatures on the Grain Morphology of α-SiAlON Ceramics
S.R. Kushan and H. Mandal 169

Preparation, Microstructure and Properties of Silicon Nitride Ceramics with Aligned Whisker Seeds
D.S. Park, B.C. Bae, B.D. Han, H.D. Kim and C. Park 175

Direct Surface Force Measurement of Particles from Micron to Nanosize
J.M. Cho, S.W. Lee and W.M. Sigmund 185

Novel SiAlON Ceramics for Cutting Tool Applications
H. Mandal, F. Kara, S. Turan and A. Kara 193

Tribological Behaviour of α/ß Composite SiAlON Ceramics
K. Hirao, M.I. Jones, H. Hyuga, Y. Yamauchi and S. Kanzaki 203

The Role of Microstructure in the Erosion Behaviour of Engineering Ceramics
Y. Zhang, Y.B. Cheng and S. Lathbai 211

Surface Modification of SiAlON Ceramics
S.M. Lee, H.T. Kim, S.S. Baek, S.J. Cho and S.J.L. Kang 221

Dry and Wet Oxidation of Y-α-SiAlON Powder at 1000° - 1300°C
H. Kiyono, T. Aketo, H. Watanuki and S. Shimada 227

Corrosion Behaviour of Porous SiAlON Ceramics
J.F. Yang, Y. Beppu and T. Ohji 233

SiAlON Glasses, their Properties and Crystallisation
S. Hampshire 239

Effect of Composition and Processing Conditions on the Formation of Y and Er-SiAlON B and I_w Phase Glass-Ceramics
A. Díaz, E. Dolekcekic, M.J. Pomeroy and S. Hampshire 247

High Aluminium Content Glasses and their Properties in Y- and Ln-SiAlON Systems
W. Redington, M. Redington and S. Hampshire 253
