

Table of Contents

Foreword and Organized

Bamboo Materials

Limits States Analysis for Bamboo Pin Connections L.E. Moreira and K. Ghavami	3
Projects Selection and Evaluation Tools for the of Non-Conventional Materials and Technologies (NOCMATS) P. Ohayon and K. Ghavami	13
Application of Non-Conventional Materials: Evaluation Criteria for Environmental Conservation in Brazil L.A.F. de Moraes, P. Ohayon and K. Ghavami	20
Impregnation of Bambusa Vulgaris with Polymeric Resins A. Sobrinho, S.M. Torres, N.P. Barbosa, S.R. Ortiz and K. Ghavami	27
Experimental Study of Glulam Single-Bolted Joint Loaded by Tension R.Z. Yang and Y. Xiao	34
Mechanical Properties of Glulam Sheets after Artificial Accelerated Aging B. Shan, J. Chen and Y. Xiao	43
Experimental Buckling Capacity of Multiple-Culm Bamboo Columns M.J. Richard and K.A. Harries	51
Effect of Fiber Gradation on the Edge Bearing Strength of Bamboo Culms B. Sharma and K.A. Harries	63
Variation of Tensile Strength Parallel to the Fiber of Bamboo <i>Guadua Angustifolia Kunth</i> in Function of Moisture Content M.G. Gonzalez, C.P. Takeuchi and M.C. Perozo	71
Experimental Determination of Allowable Stresses for Bamboo <i>Guadua Angustifolia Kunth</i> Structures P. Luna, J. Lozano, C.P. Takeuchi and M. Gutierrez	76
Preliminary Research on Characteristics of Bamboo Briquette Charcoal as Solid Fuel L. Wang, M.J. Guan and Q.S. Zhang	81
Selected Physical and Mechanical Properties of Bamboo and Poplar Composite OSB with Different Hybrid Ratios C. Yong, M.J. Guan and Q.S. Zhang	87
The Flexural Characteristics of Prestressed Bamboo Slivers Reinforced Parallel Strand Lumber (PSL) H.X. Cui, M.J. Guan, Y.X. Zhu and Z.Z. Zhang	96
Performance Evaluation of Bamboo Scrimber under Planner Machining M.J. Guan, Z.Y. Cai, Y.X. Zhu and J.M. Lin	101
The Influence on Bamboo Fungi by Ultrasonic Dip Treatment M.M. Zhou, M.J. Guan and Q.S. Zhang	107
Experimental Study on the Tensile Properties of Bamboo Related to its Distribution of Vascular Bundles D.S. Huang, A.P. Zhou, H.T. Li, Y. Su and G. Chen	112
Test Research of Glulam and it's Engineering Application Y.L. Sun and M.J. He	118

Bamboo Structures

Low Carbon Construction Using Guadua Bamboo in Colombia H.F. Archila-Santos, M.P. Ansell and P. Walker	127
Monotonic and Cyclic Tests of Round Bamboo Shear Walls Z. Li, Y. Xiao, B. Shan, L. Li and R. Wang	135

Experimental Study on Creep and Mechanical Behavior of Modern Bamboo Bridge Structure	
L. Li, Y. Xiao and R.Z. Yang	141
The Regional Expression in Utilization of Material Construction: The Landscape Sketch Practice of the Modern Bamboo Structures in Meixi Lake Project	
L.L. Zhong, C.Y. Wei, Y. Xiao and B. Shan	150
Flexural Fatigue Study of Glulam Beams	
Q. Zhou, Y. Xiao, J.Y. Zeng, X. Huang and Y.B. Zhao	158
Experimental Study of Glued Laminated Guadua Bamboo Panel as an Alternative Shear Wall Sheathing Material	
J.F. Correia and S. Varela	164
Racking Performance of Traditional and Non-Traditional Engineered Bamboo Shear Walls	
J. Arbelaiz and J.F. Correia	171
Design and Construction of Housing with Structural Elements of Bamboo (Guadua) Laminated	
C.P. Takeuchi	179
Experimental Analysis of Frames Made with Glued Laminated Pressed Bamboo Guadua	
P. Luna and C.P. Takeuchi	184
Textile-Architecture Structured on Bamboo Culms	
J.L.M. Ripper, D.M. Campos and J.V.A.d.M.C. de Melo	189
Traditional Bamboo Houses of North-Eastern Region: A Field Study of Assam & Mizoram	
P. Das, K. Chaaruchandra, P. Sudhakar and S. Satya	197
Experimental Study of Twin Bamboo Concrete Composite Column under Laterally Restrained Pure Axial Loading	
K. Chaaruchandra, A. Gupta and P. Sudhakar	203
Experimental Study of Twin Round Bamboo Concrete Infill Parabolic Tied Arch	
S. Chugh, A. Kandya, K. Chaaruchandra and P. Sudhakar	208
Potentiality of Plaster Reinforced by Bamboo in Structural Elements	
C.G. Silva, N.P. Barbosa and M.P. Oliveira	213
Shake Table Test of a Bamboo Frame Structure	
J. Zhu and Q.F. Lv	217
The Research for the Strengthening Method of Bamboo Poles in Dai's Houses Roof Frame	
Y.J. Wang and W.F. Bai	222
Preliminary Study on Design and Manufacture of Modular Round Bamboo House	
L. Gao, Z. Wang, G. Wang and H.T. Cheng	227
Bamboo Strengthened with Carbon Fiber Reinforced Polymer for the Substitutes of Steel Substructures	
Z. Huang, Y.J. Wu and C. Zhang	233
Design and Mechanical Tests of Bamboo Masts	
L.E. Moreira, F.J. da Silva and F.C. Rodrigues	238

Case Study of Non-Conventional Buildings

Prospects for the Use of Wood in Residential Construction in Brazil - First Results	
K.R.G. Punhagui, É.F. Campos, J.M.B. González and V.M. John	247
The Wu Zh Qiao Practice - Local Materials Applied in Rural Areas in the West China	
L. Wan, E. Ng, J. Mu and T.G. Zhou	261
Field Study on Thermal Environment of Typical Rural Houses in Qin-Ling Mountain	
W.F. He, J.P. Liu and R.R. Hu	269
Study on Climate Adaptability of Traditional Houses with Earth-Envelopment Wall in Turpan	
H. Bai, J.P. Liu, S.G. Jiang, W.F. He and L.G. Li	274
A Research on the Energy-Saving Operating Mode of Large-Scaled Public Building Based on Energy Management Contract in Shaanxi Province	
X.J. Zhang and Q. Song	281
Study on the Building Material Optimization of Yi Minority's Tu-Zhang-Fang	
S.N. Song and B. Cheng	286

How to Build Affordable but High Quality Houses for Villagers: Appropriate Design for Aini Vernacular Houses in Xishuangbanna L.Z. Tang	290
---	-----

Cements and Concretes

Methodological Approaches to 3D Pore Structure Exploration in Cementitious Materials P. Stroeven, L.B.N. Le and H. He	305
Asphalt Concrete with Fly Ashes of Different Sources as Filler Replacement P. Stroeven, H. He and P.H. Hanh	315
Study on Restoring Force Models of Steel High Performance Concrete Composite Structural Wall L. Bai, T.H. Zhou and X.W. Liang	323
Particle Packing Density and Limestone Fillers for More Sustainable Cement H. He, L. Courard and E. Pirard	331
Pastes Prepared with Sulfonate, Chalcedony and Sugar U.T. Bezerra and N.P. Barbosa	338
Developing Low CO₂ Concretes: Is Clinker Replacement Sufficient? The Need of Cement Use Efficiency Improvement B.L. Damineli and V.M. John	342
Corrosion of Permeable Concrete under Simulated Acid Rain H.F. Guo, Z.G. Song and S.Y. Yang	352
Use of Vibrating Wire Strain Gauges to Monitor Corrosion-Induced Deterioration of Concrete X.C. Liu, J. Wei and Z.Y. Wang	357
The Study of Alkaline-Activated Magnesium Slag Cementitious Material L.G. Xiao, F. Luo, R.B. Li and C.Y. Liu	363
Influence of Corn Straw Fibers and Polymer Latexes on Vibration Damping Property of Cement-Based Materials L.G. Xiao, Y.C. Li and R.B. Li	367
Research on Diatomite High-Performance Concrete Admixtures L.G. Xiao, Z. Zhao, R.B. Li and J.J. Hu	371
Hysteresis Analysis on Beam-Column Connection of Concrete-Filled Steel Tubular Structure under Cyclic Loading H. Qu	376
Potential Use of Colloidal Silica in Cement Based Composites: Evaluation of the Mechanical Properties S.F. Santos, J.A. Rodrigues, G.H.D. Tonoli, A.E.F.S. Almeida and H. Savastano	382
Experimental Study on All-Lightweight Aggregate Concrete Columns under Eccentric Loading Y.M. Yang and H. Zhang	392
Experimental Study on Flexural Behaviors of All-Lightweight Aggregate Concrete Beams and Slabs Y.M. Yang and H. Zhang	398
Influences of Ground Limestone Fineness on the Properties of Cement-Based Materials J. Xiao, B.G. Ma, R.Z. Dong and C.Y. Xu	403

Natural Fibers and Materials

Hygrothermal Performance of an Experimental Hemp-Lime Building M. Lawrence, E. Fodde, K. Paine and P. Walker	413
Determination of Mechanical Properties of Biodegradable Composites Made by Pine Resin Corn Fibers and Henequen Fibers E.U. Lam, M.G.G. Pliego, V.G.M. Pérez and A.M. Ramirez	422
Variables Involved in the Planting of Rice in the Rice Husk J.L. Akasaki, E.J. Silva, L.C. Sousa, J.L.P. Melges, M.M. Tashima and J. Payá	430

Processing Changes of Cement Based Composites Reinforced with Silane and Isocyanate Eucalyptus Modified Fibres G.H.D. Tonoli, M.N. Belgacem, G. Siqueira, J. Bras, L.M. Mendes, F.A.R. Lahr and H. Savastano Jr.	437
Extruded Cement Based Composites Reinforced with Sugar Cane Bagasse Fibres R.S. Teixeira, G.H.D. Tonoli, S.F. Santos, J. Fiorelli, H. Savastano and F.A.R. Lahr	450
Effects of Methane Cold Plasma in Sisal Fibers B. Barra, B. Paulo, C. Alves Junior, H. Savastano Junior and K. Ghavami	458
Mechanical Behavior of Jute Fiber-Cement Based Composites L.V. Carvalho, A.C.J. Evangelista and R.D. Toledo Filho	469
Solubility of Silicate from Sugar Cane Bagasse Ash in Alkaline Solution P.F. Filho, S.M. Torres, R.H. dos Anjos, A.d.A.V. Porto and N.P. Barbosa	477

Non-Conventional Mortars, Renders and Earth Building

Characterisation of Lime/Metakaolin Paste Using Impedance Spectroscopy R.J. Ball, G.L.A. Pesce, C.R. Bowen and G.C. Allen	487
Mechanical Strength of Lime-Rice Husk Ash Mortars: A Preliminary Study R. Méndez, M.V. Borrachero, J. Payá and J.M. Monzó	495
Light Weight Earth Material and its Application in the Alteration of Log Dwellings J.N. Yang, G.F. Shen and W.F. Bai	500
Research on the Self-Leveling Mortar Made of Tailings Y. Chen, Q.Y. Li, J.M. Liu and G.B. Yue	506

Recycled Materials

Reuse System of Building Steel Structures - Structural Performance of Reusable Members and Practical Examples M. Fujita	513
The State-of-the-Art Study on Long-Term Property of Recycled Aggregate Concrete J.Z. Xiao and H. Li	522
Seismic Test on a Damaged Structure with Recycled Concrete Blocks J.Z. Xiao and C.Q. Wang	528
Tests on Seismic Behaviors of Double Thin Skin Hybrid Walls Filled with Demolished Concrete Lumps B. Wu, C.H. Liu and Q.X. Liu	536
Self-Compacting and Conventional Concrete with Mineral Waste: Fresh and Hardened State Properties E. Bacarji, V.C. Marques and R.D. Toledo Filho	547
Lignocellulosic Composites Made from Agricultural and Forestry Wastes in Brazil L.M. Mendes, R.F. Mendes, G.H.D. Tonoli, L. Bufalino, F.A. Mori and J.B. Guimarães Júnior	556
Seismic Behavior Test of Recycled RC Frame Column with Different Axial Compression Ratios J.S. Fan, A. Zhou, L.H. Chen and B.K. Liu	564
Availability of Resilient Modulus and Permanent Deformation Laboratory Tests of Stabilized Soil with Coal Ashes for Pavements Base L.S.E. Lopes, P. Vargas, M.D.T. Casagrande and L.M.G. Motta	570
Pseudo-Static Experiment Study on Recycled Concrete High Shear Walls L.H. Chen, A. Zhou and B.K. Liu	577
Experimental Study on Bending Behavior of Concrete Slabs Reinforced by Cold-Rolled Ribbed Steel Wires with Improved Elongation L.X. Liu and H.P. Zhang	583
Experimental Study on Compressive Performance of R.C. Columns with Recycled Aggregate T. Hao, L.T. Zhao and Z.H. Du	589

Experimental Study on Fatigue Behavior of Prestressed Concrete Beams with Manufactured Sand Q.Q. Li, L.X. Liu and S.D. He	595
Experimental Study on Flexural Property of Reinforced Concrete Beams with Recycled Aggregate of Construction Waste Z.H. Du, T. Hao and L.X. Liu	601
Compared Research on Elastic Modulus Strength between Manufactured Sand Concrete and Ordinary Concrete S.D. He, L.X. Liu, Q.Q. Li and Z.Y. Zhang	606
Study for Utilization of Industrial Solid Waste, Generated by the Discharge of Casting Sand Agglomeration with Clay and of Blast Furnace Slag, in Concrete Composition J. Mazariegos Pablos, E.P. Sichiari and M.S. de Andrade Zago	611
Characterization Physics, Chemistry and Mineralogy of Waste from Kaolin and their Potential Pozzolanic to Alkali Activation D.T.A. Ferreira, B.D. Rocha, E.C. de Lira, K.C. Gomes, S.M. Torres and N.P. Barbosa	617
Activation Alkaline Waste Kaolin for Fabrication of Building Blocks K.C. Gomes, B.D. Rocha, D.T.A. Ferreira, E.C. de Lira, S.M. Torres, S.R. de Barros and N.P. Barbosa	622
Durability Evaluation of Agro-Industrial Waste-Based Particle Boards Using Accelerated Aging Cycling Tests N. Garzón, D. Sartori, I. Zuanetti, G. Barbirato, R. Ramos, J. Fiorelli, S.F. Santos and H. Savastano	628
Alternatives Panels from Waste Plastics Reinforced with Fibers of Pupunha Palm for Use in Civil Construction and Furniture Industry	635
Study of EVA Blocks Waste Recyclability F.A. Meira, M. da Paz Medeiros Fernandes, A.B. de Melo and E.P. da Silva	646
Sanitary Ware Industry as an Aggregate to Produce Concrete and Mortar J. Santos da Costa, C.A. Martins and J.B. Baldo	653

Timber and Masonry

Fracture Toughness of Northeast China Larch L.P. Qiu, E.C. Zhu, H.Z. Zhou and L.Y. Liu	661
Structural Performance of Typical Beam-Column Joints in Yingxian Wood Pagoda - An Experimental Study Z.Y. Chen, E.C. Zhu, J.L. Pan and G.F. Wu	669
The Effect of Knots on Bending Modulus of Elasticity of Dimension Lumber Y. Zhong, H.Q. Ren, W.L. Lou and X.Z. Li	677
Mechanical Grading of Structural Larch Dimension Lumber W.L. Lou, H.Q. Ren, Z.H. Wang and X.Q. Luo	683
The Effects of Thermal Loading on Masonry Structures M. Gohnert	689
Effect of Timber Grain Orientation on Bonded-In Rod Connection Systems H. Pearson, M. Evernden and R. Harris	695
Structural Behaviors of Chinese Historical Timber-Frame Buildings X.C. Zhang, H.T. Zhao and Y. Sui	705
Study on Wooden Shan-Jia Structural of the Tile Board House Residence of Yi Minority in Liangshan S.N. Song, Z.Z. Li and B. Cheng	710

Low Carbon, Energy Saving Design and Practice

Sensor Network Design for Monitoring a Historic Swing Bridge G. Monti, G. Quaranta and G.C. Marano	717
Carbon Footprint Analysis of Fibre Reinforced Polymer (FRP) Incorporated Pedestrian Bridges: A Case Study J.G. Dai and T. Ueda	724

Non-Traditional Materials, Technology and Non-Traditional Research Mode Q. Ye, T.W. Ju and N. Chen	730
Micro-Silica for High-End Application from Carbon Capture and Storage by Mineralisation A. Sanna, M. Dri, X.L. Wang, M.R. Hall and M. Maroto-Valer	737
Inter-Story Capacity Spectrum for the Performance Based Seismic Design of Vertically Irregular RC Frame Structures I: Method J.J. Men, Q.X. Shi and Q. Zhou	745
Inter-Story Capacity Spectrum for the Performance Based Seismic Design of Vertically Irregular RC Frame Structures II: Examples J.J. Men, Q.X. Shi and Q. Zhou	749
Green Chemistry for the Production of Biodegradable Polymers as Solid Substrate and the Formation of Sustainable Biofilm A. Tiwari, A.M. Ramirez, R. Jain and A. Saxena	755
Application and Research Progress of Aluminum Alloy Bridge Decks Y. Zhang, J.F. Qiu and H. Bai	763
Numerical Simulations and Application of Radar Monitoring on the Quality of Flexible Pile in Composite Foundation M. Zhang, H.D. Wang, J. Luo, J.P. Deng, C.F. Liao and X.Z. Yang	771
Studies on a Low Concentration Photovoltaic/Thermal System with Constant Volume Refrigeration Y. Xu, C.Y. Wang, Y.M. Hua and Y.M. Zhang	776
Experiment Research on Solar Cooker with Deflection Trough Concentrators and Heat Pipe Y. Zhang, W. Gu, X.Y. Li and R. Kuang	784
Design and Analysis of a Low Reflecting Concentrating Photovoltaic System C.Y. Wang, Y. Xu, Y.M. Zhang and Y.M. Hua	791
Study on Silo Pressure by Consider Storage Materials Density Changed along the Height Z.Y. Yang, S.H. Liu, S. Zhao, J. Hu and Z.C. Lu	797
Research on Optimization for Reinforcement of Structures J. Hu, Z.Y. Yang, S. Zhao and S.H. Liu	801
Research on Numerical Simulation of Heliostat's Surface Wind Pressure Y.G. Wang and Z.N. Li	809
Analysis of Parameters' Sensitiveness of Long-Span Hybrid Girder Cable-Stayed Bridge Z.S. Li, J.Q. Lei and D.H. Yan	817
Seismic Response Analysis of Railway Frame Piers Y. Xiao, J.Q. Lei and Z.S. Li	824
Study on Circular-Shaped Corrugated Steel Culvert Pipe for Highway Construction F. Yue, J.C. Zhao, H.J. He and X.J. Wen	832
AE Identification of Flanged Connection Condition in Vibration Environment N. Wang, Y. Yao, J.L. Tao and L. Long	836
Analysis of Energy Consumption and Electricity Consumption Norm of Hotel Building in Changsha, China Y.S. Jiang, N.P. Li, X.Q. Wei and Q. Huang	844
Flexural Behavior of Innovative Hybrid GFRP-Reinforced Concrete Beams X. Li, H.L. Lv and S.C. Zhou	850
The Quota and Analysis of Comprehensive Energy Consumption per Unit for Residential Buildings in Changsha Q. Huang, N.P. Li, X.Q. Wei and Y.S. Jiang	858
Adaptability Analysis of New Ceiling Radiant Cooling Panels with Dedicated Outdoor Air Systems Used in Summer Moist Heat Regions X.H. Zhang, N.P. Li and J.G. Yang	864
Design and Use of the Joint between Concrete-Filled Square Steel Tubular Special-Shaped Columns and Steel Beams X. Chen	870
Research on Compound Condensation/Evaporation of Four Functional Heat Pump Performance X.H. Zhang, G.C. Gong and J.Y. Zhou	875

Flexural Behavior of NSM CFRP - Stone Composite Beams: Experimental Investigation Z.X. Guo, Y. Ye, B.C. Liu and Y. Liu	881
Research of Thermal and Moisture Transport within Compound Bamboo Wall with Different Moisture Content L.L. Xiang, N.P. Li, Z. Chen and X.W. Chen	887
The Effects of Opening Windows Behavior on Indoor Air Quality of a Newly Decorated Office Building X.H. Shen, N.P. Li, X.J. Fan, Y.L. Wu and Y.Z. Ke	892
Study on Mechanical Properties of Cavity Heat Insulation Walls Out-Of-Plane Loaded C.X. Yang, J.M. Shen, W.J. Yang, S.J. Zhou and Y.Y. Wu	897
Study on the Deterioration Process of Cast-in-Place Hinged Joints in Hollow Slab Bridge under Deicing Salt Environment J. Wei, P. Li, X. Ban and R.Z. Dong	904
Application Research on the New GFRP Members Based Modified Behavior Used in Building J. Huang, Z.B. Wei and Y. Gao	910
Finite Element Analysis and Bearing Capacity Research of the New GFRP Strengthening Frame Members Based Modified Behavior Y. Gao, Z.B. Wei and J. Huang	915
Experimental Study on Compression Performance of Cavity Wall Filled with Insulation C.X. Yang, Y.Y. Wu, W.J. Yang, Q.S. Zheng and J.M. Shen	919
24m Steel Roof Truss Static Test Research of Changchun FAW-Volkswagen Golf Shop Y.M. Yang and X.J. Xie	928
Experimental Research on Interfacial Bond Performance in Rock Anchor with High-Performance Grouting Medium Z. Fang and H.Q. Zhang	932
Using Artificial Intelligence to Build with Unprocessed Rock M. Lambert and P. Kennedy	939
High-Performance Grouts for Rock Anchor Z. Fang and S.H. He	946
Introduction of Tilt-Up Construction and Details of Connection Q. Han, Y.H. Wang, G.W. Zhang and H. Wu	952
Seismic Tests on Square Thin-Walled Steel Tubular Columns Filled with Demolished Concrete Lumps B. Wu, X.Y. Zhao, J.S. Zhang and Q.X. Liu	958
