

Table of Contents

Preface, Committees and Sponsors

Bio-Based Epoxies and Composites for Technical Applications A.K. Bledzki, M. Urbaniak, A. Boettcher, C. Berger and R. Pilawka	1
Polymethylmethacrylated Oligoaniline: Synthesis, Characterization and Properties O.E. Bogomolova, O.A. Pyshkina and V.G. Sergeev	7
A Study of Absorption Properties Improvement of Cotton Blended Fabric A. Borisova and S. Reihmane	13
The Effect of Montmorillonite Type Nanoparticles on Stiffness and Flammability of Rapeseed Oil Based Polyisocyanurate Foams U. Cabulis, M. Kirpluks and J. Andersons	19
Level of Comfort: Artificial and Natural Shoe Materials. A Comprehensive Assessment Y. Fordzyun, O. Andreyeva and L. Maistrenko	25
PHA Latex Composite Films: Mechanical Properties and Surface Visualization S. Gonta, L. Savenkova, J. Kolosovskis, A. Dzene, V. Tupureina, A. Bulanov and E. Kirilova	31
Influence of Nanoclay Additive on Mechanical Properties of Bio-Based Polyurethane Nanocomposites K. Ivakina, E. Skadins, A. Kiyanitsa, S. Gaidukov, V. Tupureina, U. Cabulis and R.D. Maksimov	37
Recycled Polycarbonate Based Nanocomposites G. Japins, J. Zicans, R.M. Meri, T. Ivanova, R. Berzina and R. Maksimov	43
Electrochemical Properties of Advanced Anodes for Lithium-Ion Batteries Based on Carboxymethylcellulose as Binder V. Khomenko, V. Barsukov and I. Senyk	49
Composite Catalysts towards Oxygen Reduction in Aqueous Solutions V. Khomenko, K. Lykhnytskyi, V. Barsukov and V. Chaban	57
Hyperbranched Fluorescent Polyphenylenes: Synthesis and Spectral Analysis I.A. Khotina, M.A. Babushkina, N.S. Kushakova, E.U. Loushnikova, Y.V. Vasiliev, A.I. Kovalev, W. Mröz and U. Giovanella	63
Three Different Approaches for Polyol Synthesis from Rapeseed Oil M. Kirpluks, U. Cabulis, M. Kurańska and A. Prociak	69
Young's Modulus Identification by Using Cylindrical Specimens A. Kovalovs, S. Gluhiks and A. Chate	75
Improvement of Thermal Polyurethane Adhesive Compositions Parameters by Modification with Zeolite O.P. Kozar, V.V. Oliynykova and V.P. Konoval	81
Compact Representation and Statistical Significance of Measurement Data Reflecting Electric Properties of Polymer Nanocomposites I. Matīss, Ē. Pentjušs, O. Krievs and R. Berzina	87
Thermal and Mechanical Properties of Unvulcanized Polypropylene Blends with Different Elastomers: Ethylene-Propylene-Diene Terpolymer, Nitrile-Butadiene Copolymer and Chlorinated Polyethylene I. Reinholds, V. Kalkis, J. Zicans, R. Merijs Meri and A. Grigalovica	93
Influence of Cellulose Stearate (CS) Content on Thermal and Rheological Properties of Poly(lactic acid)/CS Composites D. Sumigin, E. Tarasova, A. Krumme and A. Viikna	99
Preparation of Cellulose Stearate and Cellulose Acetate Stearate in 1-Butyl-3-Methylimidazolium Chloride E. Tarasova, D. Šumigin, M. Kudrjašova and A. Krumme	105
Improvement of Paper Hydrophobic Properties by Using Biodegradable Natural Polymer – Chitosan L. Vikele, A. Treimanis and M. Laka	111
Properties of Polyurethanes Based on Tall Oil Fatty Acids Ester with Different Types of Flame Retardants V. Yakushin, U. Stirna, I. Sevastyanova, D. Vilsone, V. Zeltins and M. Kirpluks	115

Electrochemistry and *In Situ* EPR Spectroelectrochemistry of Poly(3,4-ethylenedithiothiophene)

P. Źassowski, W. Domagala, M. Lapkowski and P.J. Skabara

121

Liquid Crystalline Copolyester Made from Recycled Polyethylene Terephthalate and p-Acetoxybenzoic Acid: Synthesis, Characterization and Blending with Recycled Polyethylene Terephthalate

T. Ivanova, I. Elksnite, J. Zicans, R. Merijs Meri, I. Reinholds and V. Kalkis

127
