

# Table of Contents

## Preface

<b>Cracking Control for Diaphragm of Long-Span Prestressed Concrete Box Girder Bridge at the Early Age</b> G.D. Li and Z.L. Wang	1
<b>Rapid Assessment Method of Girder Bridge Carrying Capacity Based on Traffic Running Test</b> W.Z. Li, X.M. Huang and Y. Li	11
<b>Prospect Analysis of the Application of BFRP Bar to Bridges</b> S.Y. Zhang and W. Shan	21
<b>Parameter Analysis of Vehicle-Bridge Coupling of Half through CFST Arch Bridge due to Vehicle</b> X.F. Xie and J.W. Ding	31
<b>Design on Dynamic Performance of Highway Bridges to Moving Vehicular Loads</b> Q.F. Gao, Z.L. Wang, B.Q. Guo, H.R. Bu and W. Xiong	43
<b>Dynamic and Mitigation Analysis of Seismic Pounding Effect on Multi-Span Highway Bridges Subjected to Spatial Earthquakes</b> Y. Li, L. Zhao, H. Sun and J.B. Liu	53
<b>Modified Damage Assessment and Repair Design for Underpass Bridge Based on Fire Effect</b> Z.L. Li, H.L. Wu, X.D. Zhu, H.J. Gu, Z.Y. Liu and T. Yin	67
<b>Reliability Prediction of Bridges Based on Monitored Data and Bayesian Dynamic Models</b> X.P. Fan and D.G. Lu	77
<b>Investigation of the Optimal Construction of the One-Cave Tunnel with Double-Arch Section</b> B. Jin, H.Y. Zhao and Y. Liu	85
<b>Reliability Analysis of Two-Dimensional Series Portal-Framed Bridge System Based on Mixed Copula Functions</b> Y.F. Liu and D.G. Lu	95
<b>Review of the Application of Finite Element Model Updating to Civil Structures</b> D.J. Wang, Z.C. Tan, Y. Li and Y. Liu	107
<b>ANSYS-Based Spatial Coupled Vibration Analysis Method of Vehicle-Bridge Interaction System</b> X.Y. Huang, W.D. Zhuo and G.P. Shang	117
<b>Problems and Suggestions of Chinese Highway Bridge Seismic Design</b> X.Y. Gao and S.Y. Zhang	127
<b>Development and Challenge of the Vehicle and Highway Bridges Dynamic Interaction</b> J.F. Liu and Y. Li	135
<b>A Practical Method for the Construction of the Supporting System of Covered Excavation of Metro Station</b> B. Jin, H.Y. Zhao and Y. Liu	151
<b>Safety Assessment of Slant Legged Rigid Frame Bridge Based on Field Testing</b> Y. Li, H.T. Bi, B.H. Li and Y.J. Wang	163
<b>The Ratio Optimization of Side to Main Span in Low-Pylon Cable-Stayed Bridge Based on Yudao River Bridge</b> H.T. Bi and Y. Li	177
<b>Performance Evaluation of a Damaged Bridge by Using the Method Based on Dynamical Characteristic</b> J. Yuan, X. Tang and Y. Liu	185
<b>Development and some Key Issues of Modal Parameter Identification in Bridges</b> G.H. Hu, C. Ma, C.X. Yang and Y. Liu	193
