

# Preface

The special volumes are to communicate the latest progress and research results of new theory, new technology, method, equipment and so on in advanced manufacturing technology field, and to grasp the updated technological and research trends in international, which will drive international communication and cooperation of production, education and research in this field.

The major topics covered by the special volumes include Applied Materials Engineering, Materials Processing Technologies and Mechanical Engineering, Monitoring Method and Technology in Mechanical Engineering, Control System in Mechanical Engineering, Management and Development of Manufacturing Technologies and so on.
