Preface

The book is a collection of the accepted paper concerning Progress in Mechanical

Engineering and Technology. All accepted papers were subjected to trick peer-reviewing by 2

expert referees.

The resultant dissemination of the latest research results and the exchanges of views

concerning the future research directions to be taken in this field makes the work of immense

value to all those having an interest in the topics covered. The presented book represents

cooperative effort to seek out the best strategies for effecting improvements in the quality and

the reliability of machines and machine parts and to widen their application.

Our sincere appreciation and thanks go to these authors for their contributions to this book.

We are grateful to all referees for their meticulous work and their constructive comments.
