Preface, Organizing Committees and Acknowledgement

I. Steels

Various Approaches to Accelerated Carbide Spheroidization of 54SiCr Steel L. Kučerová, H. Jirková and B. Mašek	3
Identification of Carbides in Sub-Zero Treated Vanadis 6 Ledeburitic Steel J. Ptačinová, M. Dománková, M. Hudáková, P. Jurči and P. Bílek	9
Influence of Heat Treatment Conditions on Properties of High-Speed P/M Steel Vanadis 30 J. Sobotová, M. Kuřík and J. Cejp	17
Microstructure of Tool Steel X37CrMoV5 after Cryogenic Treatment and its Effect on Wear Resistance D. Jandová, P. Šuchmann and J. Nižňanská	23
Influence of Annealing Temperature and Time on the Mechanical Properties of Selected Steels for Heavy Forgings J. Horník, P. Zuna, J. Málek, T. Jetmar, J. Kasl, M. Matějová and F. Jandoš	38
Effect of Sample Thickness on Slab Surface Zone Toughness in IF and Microalloyed Steels M. Longauerová, M. Fedorová, P. Bekeč, J. Duška, M. Hurakova, S. Longauer and J. Konrádyová	47

II. Alloys

Novel Trends in the Development of Metallic Materials for Medical Implants D. Vojtěch, J. Kubásek, J. Čapek and I. Pospíšilová	59
Materialographic Analysis of MAR M-247 Superalloy P. Jonšta, I. Vlčková, Z. Jonšta and B. Podhorná	66
The Influence of Ge on the Properties of Mg Alloys J. Šerák, T. Kovalčík, D. Vojtech and P. Novák	72
The Influence of Oxygen on Mechanical Properties of Ti35Nb6Ta Alloy F. Hnilica, J. Malek and J. Veselý	79
Effect of Al Content and Heat Treatment on Microstructure of ZnAlCu Alloys M. Longauerová, M. Glogovský and M. Vojtko	85

III. Surface Treatment and Powder Metallurgy

Dependence of NiTi Alloy Microstructure on the Conditions of Powder Metallurgy Production P. Novák, H. Moravec, J. Vystrčil, J. Adámek, J. Kopeček and T. Kubatík	95
Structure of Nanocrystalline Nickel Prepared by Powder Metallurgy A. Michalcová, P. Svobodová, I. Marek, D. Vojtech and T. Kubatík	102
Utilization of Light Microscopy for the Evaluation of Fracture Toughness of Cemented Carbides Z. Špirit and A. Kříž	108
Corrosion Resistance of Inconel 625 and Austenitic Steel M41 after Laser Claddings S. Němeček, L. Fiedler and P. Fišerová	115
Microstructure of Cr₂N-11Ag Nanocomposite Thin Film Deposited on Vanadis 6 Tool Steel P. Bílek, P. Jurči, L. Čaplovic, M. Hudakova and J. Ptačinova	121

VI. Welding and Creep Resistant Materials

Structure Analyses of Experimental Welds Designed for Repair Welding of VVER 1000 Presssure Vessel M. Matějová, D. Jandová and J. Kasl	131
--	-----

Laser Welding of High-Strength CP Steels: Dissimilar Welds J. Kašpar and S. Němeček	141
Heterogeneous Welded Joints (T23-T92; 15CH1M1F-P91) P. Ducháček and J. Janovec	147
Influence of Microstructural Changes in Creep Resistant Steel after Long-Term Creep Tests on the Shape of the Polarization Curves J. Sladká, D. Jandová and E. Chvostová	153
Material Degradation of Steam Pipe Elbow after Long-Term Exposure L. Pekařová and Z. Kuboň	162

V. Methods of Research and Analyze

Metallographic Evaluation of Surface Integrity A. Kříž	173
Application of Stereological Relations for the Characterization of Porous Materials via Microscopic Image Analysis T. Uhlířová, E. Gregorová and W. Pabst	180
Porosity Quatification of Cast Aluminium Alloys on Machined Surfaces Using Metallography and Eddy-Currents B. Skrbek	188
Metallographic and Acoustic Analyses of Sintered Sliding Layers B. Skrbek	195

IV. Failure Analysis

Assessment of the Causes of Indicated Defects in Forgings J. Švejcar, L. Klakurková, K. Stránský, Z. Spatz and L. Čelko	205
Analysis of Coupling Segment of Belt Conveyor L. Klakurková, L. Čelko, M. Juliš, D. Jech and J. Švejcar	210
Chain Segment Analysis D. Jech, L. Klakurková, L. Čelko, P. Doležal and J. Švejcar	216
Analysis of Cracked Spring Washer for Sleeper-Rail Joints Z. Pavloušková, O. Man, M. Horynová, L. Čelko and J. Švejcar	222
Defects in Tool Steels for Dies J. Míšková, P. Martínek and P. Podaný	228
Failure Analysis of a 20 MW Turbine Rotor J. Kasl	235
Detection of Cracks in the Production of Shafts J. Holec, M. Morávek and J. Cejp	243
Corrosion Resistance of Casings for Metal Detectors in Food Industry Made of Cr-Ni Stainless Steel P. Martínek, J. Míšková and P. Podaný	248
