Preface, Scientific Committee, Organizers and Sponsors

Chapter 1: Microstructure Analyses and Materials Research

Development of Forming Processes for MoNiCr Alloy Z. Novy, J. Džugan, P. Wangyao and L. Kraus	3
Effect of Alloying Modification in Arc Melted Hastelloy X on Microstructures and Oxidation Resistance at Elevated Temperatures P. Srigiofun, P. Wangyao and T. Rojhirunsakool	8
Effect of Pre-Weld Heat Treatment Temperatures on TIG Welded Microstructures on Nickel Base Superalloy, GTD-111 T. Rojhirunsakool, D. Thongpian, N. Chuankrerkkul and P. Wangyao	14
Effect of Thermal Exposure on Long-Term Heated Microstructures at 900°C of Nickel Base Superalloy Turbine Blade, Grade Inconel 738 P. Wangyao, S. Polsilapa, S. Singmaneesakulchai and A. Promboopha	19
Effect of Thermal Exposure on Long-Term Heated Microstructures at 900°C of Nickel Base Superalloy Turbine Blades, Grade Udimet 500 P. Wangyao, S. Polsilapa, A. Srimek and A. Promboopha	25
Effects of Isothermal Aging on Microstructure Evolution of Biomedical Co-Cr-Mo Alloy P. Khaimanee, P. Choungthong and V. Uthaisangsuk	31
Direct Observation of Liquation in Ni-Base Superalloy by Using Confocal Laser Scanning Microscopy N. Phuraya, I. Phung-On, H. Terasaki and Y. Komizo	36
Atmospheric Corrosion Behavior Assessment of Carbon Steel Pipes Using Cyclic Salt Spray Test P. Chatisathien and N. Suttitam	42
Determination of 3D Ductile Failure Criteria for Advanced High Strength Steel Sheet K. Charoensuk and V. Uthaisangsuk	53
Effect of Copper and Zinc on Microstructures, Melting Points and Corrosion Resistance of Sn-Zn-Cu-Bi Soldering Alloys W. Terdthaichairat, P. Senthongkaew and R. Techapiesanchaenokij	59
Effects of Beryllium and Tin on Spring Property of Aged Silver Alloys 935 without Solutionization Treatment N. Chairerk, S. Imurai, T. Chairuangsi and E. Nisaratanaporn	64
Effects of Cooling Rate and Carbon Content on Mechanical Property of Sintered Fe-Cr-Mo Alloys W. Kiatdherarat, P. Mungsantisuk, R. Tongsi, S. Mahathanabodee, K. Sirivedin, R. Krataitong, M. Morakotjinda, T. Yotkaew and N. Tosangthum	69
Effects of Destabilisation Heat Treatment on Microstructure, Hardness and Corrosion Behaviour of 18wt.%Cr and 25wt.%Cr Cast Irons A. Wiengmoon, T. Chairuangsi and J.T.H. Pearce	76
Flow Curves Prediction of Heat Treated Boron Alloy Steels for Hot Stamping Process P. Srithananan, P. Kaewtatip and V. Uthaisangsuk	81
Improvement of Slurry Aluminide Coating on Ferritic Stainless Steel AISI430 for High-Temperature Oxidation Resistance P. Promdirek, M. Boonpensin and T. Rojasawasatien	86
Influence of Flux-Core Arc Welding Parameters on Erosion Resistance of Stellite 12 P. Lertvijitpun and P. Promdirek	91
An Automatic Selection of Segment Width for the Single Sensor Differential Thermal Analysis (SS-DTA) Based on Piecewise Linear Approximation Technique W. Nieampradit, S. Wongsai and I. Phung-On	96
Assessment of Electricity Generation on Different Inorganic and Metallic Embedded in Solar Photovoltaic Panels: Cases of Thailand P. Peerapong and B. Limmeechokchai	101

Determination of Mechanical Adhesion Energy of Thermal Oxide Scales on Steel Produced from Medium and Thin Slabs Using Tensile Test T. Nilsonthi	106
Effect of Type and Coating Time of Interlayer on Properties and Morphology of Cr-Zr-N Film Prepared by DC Magnetron Sputtering PVD on H13 Steel K. Taweesup, R. Lertsakwanit, J. Jirawanichkul, N. Yongvanich, G. Lothongkum and P. Visuttiptitukul	111
Wear of Diamond Grinding Wheel during Low Speed Dressing by Alumina T. Luangvaranunt, N. Tangkaratanakul and P. Sakultantimetha	120
The Role of Fluorosurfactant on Cu-Sn Electrodeposition from Methanesulfonic Acid N. Pewnim and S. Roy	125
A Study on Spirituous Liquor Efficiency Using Direct Alcohol Fuel Cell N. Wongyao, A. Therdthianwong and S. Therdthianwong	129

Chapter 2: Materials Processing Technology

Developments of Metallic Foams in Thailand S. Asavavisithchai	135
Effect of Electrolytes on Quality Characteristics of Glass during ECDM P. Kumar Gupta, A. Dvivedi and P. Kumar	141
Mechanical Properties Improvement of Semi-Solid State Joining of Aluminum Alloys SSM A356 A. Geaowdee and P. Muangjunburee	146
Microstructure and Mechanical Properties of Welding Repair of 5083 Aluminum Alloy S. Sukawet and P. Muangjunburee	151
The Decomposition of Zinc Ferrite in Electric Arc Furnace Dust by Carbon S. Polsilapa, P. Intakuean and A. Promboobpa	156
The Influence of Current Density for Zinc Electrodeposition on Color Appearance of Black Trivalent Chromate Conversion Coatings N. Pintuperakovit, W. Mohammed, P. Visuttiptitukul, S. Sukkasi and Y. Boonyongmaneerat	161
Wear Behavior of Hardfacing Deposits on 3.5 % Chromium Cast Steel B. Srikarun and P. Muangjunburee	167
Wear Behavior of Hardfacing Deposits on Hadfield Steel C. Dumrudkarn and P. Muangjunburee	172
Drilled Hole Technique for Created Single Point Incremental Forming Limited Diagram K. Rattanachan	177

Chapter 3: Nano Materials and Technology

Effects of Ageing Periods on Compositions and Sizes of Titanium Dioxide Particles Synthesized by Sol-Gel Technique O. Jongprateep and R. Puranasamriddhi	185
Synthesis and Characterization of PdCoNi Nanocomposites Supported on Graphene as Anodic Electrocatalysts for Methanol Oxidation in Direct Methanol Fuel Cell S. Meeyng, P. Viravathana, A. Wongchaisuwat and S. Tangbunsuk	190
Determination of Stress-Strain Curve of Dual Phase Steel by Nanoindentation Technique S. Punyamueang and V. Uthaisangsuk	195
