

# Preface

International scientific conference “Multifunctional chemical materials and technologies” (MCMT-2015) was organized by Tomsk State University in May 21-22, 2015, Tomsk, Russia.

It was a scientific forum for promoting the development of basic research in the field of nanosystems and materials, environmental management, as well as chemical and analytical control and monitoring of substances, materials and objects in the environment.

The issues of discussion problems were associate with physical and chemical laws of creation and modification of the multifunctional materials; achievements in the field of producing, studying the properties of organic and inorganic substances and materials; high performance and resource saving methods of processing of natural and synthetic row materials; chemical-analytical control of substances, materials and objects in the environment.

We want to thank the Organizing Committee, the Universities and Sponsors supporting the conference, and everyone who contributed to the organization of this meeting, for their contribution towards the conference and for their contributions to this proceeding.

*The Organizing Committee of MCMT-2015*

## **Editors:**

*Dr. Yuriy G. Slizhov, Tomsk State University, Russia*

*Prof. Irina A. Kurzina, Tomsk State University, Russia*

## Conference Organization

### Co-Chairmen

Prof. Georgiy V. Mayer, National Research Tomsk State University (Tomsk, Russia)

Dr. Yuriy G. Slizhov, National Research Tomsk State University (Tomsk, Russia)

### International Scientific Committee

Academician Gennadiy V. Sakovich, Institute of Problems of Chemical and Energetic Technologies, Siberian Branch of the Russian Academy of Sciences (Biysk, Russia);

Academician Valentin N. Parmon, Institute of Catalysis, Siberian Branch of the Russian Academy of Sciences (Novosibirsk, Russia);

Academician Vladimir M. Novotortsev, Institute of General and Inorganic Chemistry, Russian Academy of Sciences (Moscow, Russia);

Academician Vladimir V. Boldyrev, Institute of Solid State Chemistry and Mechanochemistry, Siberian Branch of the Russian Academy of Sciences (Tomsk, Russia);

Academician Vyacheslav M. Buznik, All-Russian Research Institute of Aviation Materials (Moscow, Russia);

Prof. Anatoliy I. Nikolaev, Institute of Chemistry and Technology of Rare Elements and Mineral Raw Materials (Apatity, Russia);

Prof. Andrei Kanaev, The National Centre for Scientific Research (Paris, France);

Prof. Francisco J. Cadete Santos Aires, Lyon Institute of Catalysis (Lyon, France);

Prof. Gennadiy M. Mokrousov, National Research Tomsk State University (Tomsk, Russia);

Prof. Julia Kzhyshkowska, Heidelberg University (Heidelberg, Germany);

Prof. Lyubov K. Altunina Institute of Petroleum Chemistry, Siberian Branch of the Russian Academy of Sciences (Tomsk, Russia);

Prof. Oleg Mayboroda, University of Leiden (Leiden, Netherlands);

Prof. Olga V. Vodyankina, National Research Tomsk State University (Tomsk, Russia);

Prof. Ugo Bardi, University of Florence, (Florence, Italy);

Prof. Vadim Kessler, Uppsala University (Uppsala, Sweden);

Prof. Vladimir K. Ivanov Institute of General and Inorganic Chemistry, Russian Academy of Sciences (Moscow, Russia);

Prof. Vladimir V. Kozik, National Research Tomsk State University (Tomsk, Russia);

Prof. Yuriy A. Zaharov, Kemerovo State University (Kemerovo, Russia);

Prof. Yuriy L. Zub Institute of Surface Chemistry, National Academy of Sciences of Ukraine (Kiev, Ukraine);

Prof. Oleg S. Pokrovsky, The National Centre for Scientific Research (Toulouse, France);

Prof. Yu-Wen Chen, National Central University (Taipei, Taiwan).

Dr. Roman V. Tumasev, OOO Tomskneftekhim (Tomsk, Russia);

Dr. Sergey V. Sysolyatin, Institute of Problems of Chemical and Energetic Technologies, Siberian Branch of the Russian Academy of Sciences (Biysk, Russia);

### Contacts

Professor Irina A. Kurzina: kurzina99@mail.ru

Dr. Yuriy G. Slizhov, decan@xf.tsu.ru

Tomsk State University, 36 Lenina avenue Tomsk 634050 Russia
