

# Preface

Dear Distinguished Delegates and Guests,

On behalf of the conference organizing committees, it is a great pleasure to welcome you to 2016 The 6th International Conference on Advanced Materials Research (ICAMR 2016), held on January 22-24, 2016 in Torino, Italy.

The objective of ICAMR 2016 is to bring together academicians, scientists, engineers, postgraduates and other professionals in the area of material science and engineering technology from all over the world. It provides a high-standard international forum to introduce, to exchange and to discuss recent advances, novel and practical techniques or applications in the fields of materials engineering, composite materials, chemical engineering, nanotechnology, and etc.

ICAMR 2016 received around 76 full paper and 40 abstract submissions from more than 15 different countries. Full papers have been blind peer-reviewed by at least two experts from the International Program Committees in order to ensure high quality Technical Program. The selection process followed strict criteria in all tracks so only 26 full papers and 14 abstracts were accepted and orally presented at the conference.

We would like to thank the program chairs, organization staff, and the members of the program committees for their work. Thanks also go to all those who have contributed to the success of ICAMR 2016. We hope that all participants and other interested readers benefit scientifically from the proceedings and also find it stimulating in the process.

Finally, we hope you have a unique, rewarding and enjoyable experience at ICAMR 2016 in Torino, Italy.

With our warmest regards,

Prof. K. M. Gupta, Motilal Nehru National Institute of Technology, India
