Preface

Evaluation of the Influence of the Facies Genesis of the Reservoir Unit of the Fainsk Oil Field YUS₁ Facility on the Effectiveness of Integrated Processing of the Injection Wells Bottomhole Formation Zone with the Application of Acid Compositions	
V. Aleksandrov, M. Kadyrov, A. Ponomarev, D. Drugov and E. Neelova	1
Peculiarities of Productive Sediments Facies Analysis according to GWL Data	
V. Aleksandrov, M. Kadyrov, A. Ponomarev, D. Drugov and V. Zapevalov	11
Using Borehole Seismic Data in Designing of Development and Further Exploration of Oil Fields	
V. Aleksandrov, M. Kadyrov, A. Ponomarev, D. Drugov and E. Neelova	20
Oil Recovery Factor Assessment Results for Sites of the Sredne-Ugutskoye Field	
V. Aleksandrov, M. Kadyrov, A. Ponomarev, D. Drugov and E. Neelova	27
Assessment of Bottomhole Formation Zone Results for the YUS₁¹ Development Wells at the Fainsk Oil Field with the Application of Hydrocarbon Solvents and Acid Compounds	
V. Aleksandrov, M. Kadyrov, A. Ponomarev, D. Drugov and M. Zavatskij	34
Refinement of the Geologic Structure of the Ozernoye Field for Improving the Development Efficiency	
V. Aleksandrov, M. Kadyrov, A. Ponomarev, D. Drugov and M. Zavatskij	40
Substantiation of the BFZP Technology Application at the Object YUS₁¹ of the Fainsk Oil Field	
I. Nesterov, M. Kadyrov, A. Ponomarev, D. Drugov and M. Zavatskij	46
Specific Features of the Geological Structure of the Formations YUS₁¹ and YUS₁² of the Sredne-Ugutskoye Oil Field and their Influence on the Effectiveness of Pay Zones Completion	
V. Aleksandrov, M. Kadyrov, A. Ponomarev, D. Drugov and O. Veduta	52
Diagnostics of Facial Complexes in Bajocian-Bathonian Deposits of the Peschanoye Field	
V. Aleksandrov, M. Kadyrov, A. Ponomarev, D. Drugov and O. Veduta	64
Application of Lithofacies Modeling for Evaluating the Effectiveness of Enhanced Oil Recovery in the Fainsk Oil Field	
V. Aleksandrov, M. Kadyrov, A. Ponomarev, D. Drugov and O. Veduta	70
Studies on Applying Acid Compositions to Treat the Western Siberian Field Bottomhole Formation Zone	
I. Nesterov, M. Kadyrov, A. Markov, D. Drugov and V. Zapevalov	77
Geodynamic and Lithofacies Features of Deposit Formation of the AV₁¹⁻² Horizon of the Samotlor Field	
V. Aleksandrov, M. Kadyrov, A. Ponomarev, D. Drugov and V. Zapevalov	88
Analysis of the Geological Structure of the Sredne-Ugutskoye Oil Field with Regard to an Increase in the Efficiency of its Development	
V. Aleksandrov, M. Kadyrov, A. Ponomarev, D. Drugov and I. Bulgakova	94
Detailed Approach to Planning Transfers from One Production Facility to Another	
V. Aleksandrov, M. Kadyrov, A. Ponomarev, D. Drugov and I. Bulgakova	101
Microseismic Multistage Formation Hydraulic Fracturing (MFHF) Monitoring Analysis Results	
V. Aleksandrov, M. Kadyrov, A. Ponomarev, D. Drugov and I. Bulgakova	107
Oil and Gas Reef Facies Reservoir 3D Geological Modeling	
V. Aleksandrov, M. Kadyrov, Z. Ufelman, V. Golozubenko and V. Kopyrin	118
Assessment of Radial Drilling Feasibility at the Fields of the Orenburg Region	
V. Aleksandrov, M. Kadyrov, A. Ponomarev, V. Golozubenko and V. Kopyrin	125
The Mature Formation Production Features	
V. Aleksandrov, M. Kadyrov, A. Ponomarev, V. Golozubenko and V. Kopyrin	133
Genetic Zoning of the YUV₁ Productive Horizon Deposits within the Tagrinsko-Yarainersky Bar	
V. Aleksandrov, M. Kadyrov, A. Ponomarev, K. Galinskij and S. Aleksandrov	140

Selecting a Technology to Increase well Capacity and Enhance Oil Recovery of the YUS₁¹ Formation of the Fainsk Oil Field	
V. Aleksandrov, M. Kadyrov, A. Markov, V. Golozubenko and S. Aleksandrov	146
Efficiency Analysis of Processing Injection Wells with Acid Compositions	
V. Aleksandrov, M. Kadyrov, A. Ponomarev, V. Golozubenko and S. Aleksandrov	153
Use of Diverter Compositions for Enhancing the Effectiveness of Oil Recovery from Productive Deposits	
V. Aleksandrov, K. Galinskij, A. Ponomarev, V. Golozubenko and Y. Sivkov	159
Peculiarities of the Geological Structure of the Roslavl License Block	
V. Aleksandrov, M. Kadyrov, A. Markov, V. Golozubenko and Y. Sivkov	171
