

Table of Contents

Preface

Chapter 1: Materials for Pharmaceutical and Biomedical Application

Mechanical Properties of Pectin/Eudragit Blend Films	3
Y. Sampaopan and J. Suksaeree	
Porous Hydroxyapatite/Chitosan/Carboxymethyl Cellulose Scaffolds with Tunable Microstructures for Bone Tissue Engineering	9
K. Wongsawichai, E. Kingkaew, E. Pariyaisut and S. Khondee	
Folate-Functionalized Amphiphilic Chitosan Polymeric Micelles Containing Andrographolide Analogue (3A.1) for Colorectal Cancer	15
T. Kansom, E. Dumkliang, P. Patrojanasophon, W. Sajomsang, R. Saeeng, W.M. Zhu and P. Opanasopit	
Catechol-Functionalized Succinyl Chitosan for Novel Mucoadhesive Drug Delivery	21
N. Sahatsapan, T. Rojanarata, T. Ngawhirunpat, P. Opanasopit and P. Patrojanasophon	
Electrostatic Effects of Metronidazole Loaded in Chitosan-Pectin Polyelectrolyte Complexes	27
S. Limsithichaikoon and C. Sinsuebpol	
Fabrication of Enteric Release Tablet without Coating Process by Using Bleached Shellac	33
M. Luangtana-anan, S. Limmatvapirat and S. Saengsod	
Optimization of <i>Boesenbergia rotunda</i> Extract-Loaded Polyvinyl Alcohol Hydrogel Wound Dressing by Box-Behnken Design	38
P. Eakwaropas, Y.Y. Myat, T. Ngawhirunpat, T. Rojanarata, P. Patrojanasophon, P. Akkaramongkolporn and P. Opanasopit	
Evaluation of Thermally Crosslinked Poly(Acrylic Acid-Co-Maleic Acid) (PAMA)/Poly(Vinyl Alcohol) (PVA) Microneedle Arrays	45
N.N. Aung, Y.Y. Myat, T. Ngawhirunpat, T. Rojanarata, P. Patrojanasophon, P. Opanasopit and B. Pamornpathomkul	
Polymethacrylates as Polymeric Film Formation in Patches Containing α-Mangostin and Resveratrol	51
W. Samprasit, B. Chamsai and P. Opanasopit	
Formulation of Chitosan-Ethylenediaminetetraacetic Acid/Poloxamer Gel Containing Fruit's Hull of <i>Garcinia mangostana</i> Extract	57
N. Charernsriwilaiwat, A. Manatkasemsak, K. Thunyamanorot and N. Thawornkhun	
Natural Furanocoumarin as Potential Oral Absorption Enhancer	63
M.P.T. Maw, P. Phattanawasin, U. Sotanaphun and N. Piyapolrungroj	

Chapter 2: Cosmetic Ingredients

Extraction Method of Protein and Insulin-Like Growth Factor-1 from Deer Antler Velvets for Skin Rejuvenation	73
W. Rangsimawong, K. Tansathien, A. Wattanakul, T. Ngawhirunpat and P. Opanasopit	
Stability of Mangiferin in Lotion and its Antioxidant Activity	79
A. Jutiviboonsuk and W. Leeprechanon	
In Vitro Antibacterial Activity of Hydrogels Containing Tamarind Seed Husk Extracts against <i>Propionibacterium acnes</i>	85
N. Baisaeng and S. Klayraung	
Development of Microemulsions Containing <i>Carthamus tinctorius</i> Extract for 5α-Reductase Inhibition	92
S. Soradech, K. Panapong, S. Soonthornsatitwong, S. Manchun, S. Tubtimted and P. Kusolkumbot	
Characteristic Assessment of the Polymeric Films Used for Hair Gel Products in Thailand	98
S. Taokaew, S. Phonsee, N. Woravut, T. Pitaksuteepong and W. Kriangkrai	

Development of Thai Gac Fruit Extraction as a Multifunctional Cosmeceutical Ingredient for Antioxidant, Melanogenesis and Collagen Stimulating Activities	104
S. Reungpatthanaphong, K. Chawanoranorasest, T. Kirdin, M. Bamrungchai and P. Reungpatthanaphong	
Antioxidant, Antityrosinase Activity and Toxicity of <i>Alpinia nigra</i> Extracts	111
P. Janyapanich, C. Kotipan, K. Teerachawalwong, S. Watana and N. Nuntharatanapon	
Anti-Melanogenic Activity of <i>p</i>-Chlorophenyl Benzyl Ether in α-MSH-Induced Mouse Melanoma B16F10 Cells	118
W. Riam-Amatakun, P. Limpachayaporn, J.R.L. Pizon, P. Opanasopit and N. Nuntharatanapon	
Biological Activities and Dermal Penetration of Liposome-Containing <i>Coprinus atramentarius</i> Extract	124
P. Sobharaksha, R. Indranupakorn and S. Manchan	
Formulation and Evaluation of Antifungal Shampoo Containing Modified Coconut Oil for Tinea Capitis Treatment	130
S. Tubtimsri, N. Saewon, N. Khonsungdee, R. Rodjanabumrungwong and S. Limmatvapirat	

Chapter 3: Nanomaterials and Nanoproducts

Andrographolide-Loaded Nanoemulsion and its Activity against Non-Melanoma Skin Cancer Cells	139
N. Sooksai, W. Treesuppharat, S. Theeramunkong and R. Asasutjarit	
Dual-Charge Nanofiber Mats Made of Chitosan(CS)/Poly(Vinyl Alcohol) (PVA) and Poly(Acrylic Acid-Co-Maleic Acid) (PAMA)/PVA	145
T. Chareonying, J.M. Sakilan, T. Rojanarata, P. Patrojanasophon, P. Akkaramongkolporn and P. Opanasopit	
PEGylated Plier-Like Cationic Niosomes on Gene Delivery in HeLa Cells	151
S. Pengnam, S. Plianwong, K. Singpanna, N. Ni-yomtham, W. Radchatawedchakoon, B.E. Yingyongnarongkul and P. Opanasopit	
Physical Stability of Astaxanthin from <i>Haematococcus pluvialis</i> Loaded in Micromeulsion as a Cosmetic Ingredient for Melanogenesis Inhibition	157
P. Kusolkumbot, K. Panapong, K. Kingkeaw, S. Soonthornsatitwong, S. Manchun and S. Soradech	
Catechol-Bearing Hyaluronic Acid Coated Polyvinyl Pyrrolidone/Hydroxyl Propyl-β-Cyclodextrin/Clotrimazole Nanofibers for Oral Candidiasis Treatment	163
C. Pornpitchanarong, K. Singpanna, T. Rojanarata, P. Opanasopit, T. Ngawhirunpat and P. Patrojanasophon	
Niosomes Containing Spermine-Based Cationic Lipid with Different Linkers for siRNA Delivery	169
S. Pengnam, P. Opanasopit, T. Rojanarata, N. Ni-yomtham, B.E. Yingyongnarongkul and S. Plianwong	
Solid Lipid Nanoparticles Containing <i>Pueraria mirifica</i> Ethanolic Extract for Hair Growth Promotion	175
K. Tansathien, N. Nuntharatanapon, S. Jaewjira, J.R.L. Pizon, P. Opanasopit and W. Rangsimawong	
Development of Nanoemulsions Containing Coconut Oil with Mixed Emulsifiers: Effect of Mixing Speed on Physical Properties	181
S. Pengon, W. Suchaoi, C. Limmatvapirat and S. Limmatvapirat	
Design of Caffeine-Loaded Nanostructured Lipid Carriers Containing Coconut Oil for Topical Application	187
S. Manchun, S. Soradech, K. Kingkaew, P. Sobharaksha, P. Sriamornsak and S. Tubtimted	

Chapter 4: Technologies of Materials Modification and Processing

Mixed Solvent-Lauric Acid Solvent-Exchange Induced <i>In Situ</i> Forming Gel	195
T. Chantadee, W. Santimaleeworagun, Y. Phoram and T. Phaechamud	
Alpha-Mangostin Phase Inversion Induced <i>In Situ</i> Forming Gel	202
S. Senarat, T. Chantadee, W. Santimaleeworagun, Y. Phoram and T. Phaechamud	
Characterization of Lauric Acid Precipitated from Biocompatible Solvents	209
N. Puyathorn, T. Chantadee, S. Senarat and T. Phaechamud	

Gamboge Resin-Based Phase Separation <i>In Situ</i> Forming Gel E.M. Khaing, T. Chantadee, T. Intaraphairot and T. Phaechamud	215
Matrix Forming Behavior of Doxycycline Hyclate-Loaded Beta-Cyclodextrin <i>In Situ</i> Forming Matrix and Microparticle N. Lertsuphotvanit, P. CHAIYA and T. Phaechamud	221
Application of Simplex Lattice Design in Formulation Development of Lozenges Containing <i>Vernonia cinerea</i> Extract for Smoking Cessation C. Monton, T. Sangprapai, N. Mekwimonmas, T. Sawangsang, N. Chankana and C. Luprasong	227
Development and Evaluation of Acetaminophen Orodispersible Disc with Taste-Masking Property P. Trirattanapintusorn, S. Leatpianpanit, P. Thanarangsarit, S. Sungthongjeen and W. Kriangkrai	233
Development and Evaluation of Hydroxypropyl Methylcellulose Patches Containing Clindamycin for Topical Application P. Suriyaamporn, T. Kasemsawat, B. Sirilert, K. Apiromrak, P. Patrojanasophon, Y.Y. Myat and S. Panomsuk	240
Effect of Formulations and Spray Drying Process Conditions on Physical Properties of Resveratrol Spray-Dried Emulsions P. Benjasirimongkol, S. Piriayaprassarth and P. Sriamornsak	246
Influence of Process Parameters on the Characteristics of Hydrophilic Drug-Loaded Microparticles through Double Emulsion Solvent Evaporation Technique L. Sutthapitaksakul and P. Sriamornsak	252
