

Table of Contents

Preface

Chapter 1: Materials for Pharmaceutical and Biomedical Application

Mechanical Properties of Pectin/Eudragit Blend Films Y. Sampaopan and J. Suksaeree	3
Porous Hydroxyapatite/Chitosan/Carboxymethyl Cellulose Scaffolds with Tunable Microstructures for Bone Tissue Engineering K. Wongsawichai, E. Kingkaew, E. Pariyaisut and S. Khondee	9
Folate-Functionalized Amphiphilic Chitosan Polymeric Micelles Containing Andrographolide Analogue (3A.1) for Colorectal Cancer T. Kansom, E. Dumkhang, P. Patrojanasophon, W. Sajomsang, R. Saeeng, W.M. Zhu and P. Opanasopit	15
Catechol-Functionalized Succinyl Chitosan for Novel Mucoadhesive Drug Delivery N. Sahatsapan, T. Rojanarata, T. Ngawhirunpat, P. Opanasopit and P. Patrojanasophon	21
Electrostatic Effects of Metronidazole Loaded in Chitosan-Pectin Polyelectrolyte Complexes S. Limsitthichaikoon and C. Sinsuepol	27
Fabrication of Enteric Release Tablet without Coating Process by Using Bleached Shellac M. Luangtana-anan, S. Limmatvapirat and S. Saengsod	33
Optimization of <i>Boesenbergia rotunda</i> Extract-Loaded Polyvinyl Alcohol Hydrogel Wound Dressing by Box-Behnken Design P. Eakwaropas, Y.Y. Myat, T. Ngawhirunpat, T. Rojanarata, P. Patrojanasophon, P. Akkaramongkolporn and P. Opanasopit	38
Evaluation of Thermally Crosslinked Poly(Acrylic Acid-Co-Maleic Acid) (PAMA)/Poly(Vinyl Alcohol) (PVA) Microneedle Arrays N.N. Aung, Y.Y. Myat, T. Ngawhirunpat, T. Rojanarata, P. Patrojanasophon, P. Opanasopit and B. Pamornpathomkul	45
Polymethacrylates as Polymeric Film Formation in Patches Containing α-Mangostin and Resveratrol W. Samprasit, B. Chamsai and P. Opanasopit	51
Formulation of Chitosan-Ethylenediaminetetraacetic Acid/Poloxamer Gel Containing Fruit's Hull of <i>Garcinia mangostana</i> Extract N. Charernsriwilaiwat, A. Manatkasemsak, K. Thunyamanorot and N. Thawornkhun	57
Natural Furanocoumarin as Potential Oral Absorption Enhancer M.P.T. Maw, P. Phattanawasin, U. Sotanaphun and N. Piyapolrungsroj	63

Chapter 2: Cosmetic Ingredients

Extraction Method of Protein and Insulin-Like Growth Factor-1 from Deer Antler Velvets for Skin Rejuvenation W. Rangsimawong, K. Tansathien, A. Wattanakul, T. Ngawhirunpat and P. Opanasopit	73
Stability of Mangiferin in Lotion and its Antioxidant Activity A. Jutiviboonsuk and W. Leeprechanon	79
<i>In Vitro</i> Antibacterial Activity of Hydrogels Containing Tamarind Seed Husk Extracts against <i>Propionibacterium acnes</i> N. Baisaeng and S. Klayraung	85
Development of Microemulsions Containing <i>Carthamus tinctorius</i> Extract for 5α-Reductase Inhibition S. Soradech, K. Panapong, S. Soonthornsatitwong, S. Manchun, S. Tubtimted and P. Kusolkumbot	92
Characteristic Assessment of the Polymeric Films Used for Hair Gel Products in Thailand S. Taokaew, S. Phonsee, N. Woravut, T. Pitaksuteepong and W. Kriangkrai	98

Development of Thai Gac Fruit Extraction as a Multifunctional Cosmeceutical Ingredient for Antioxidant, Melanogenesis and Collagen Stimulating Activities S. Reungpatthanaphong, K. Chawanoraset, T. Kirdin, M. Bamrungchai and P. Reungpatthanaphong	104
Antioxidant, Antityrosinase Activity and Toxicity of <i>Alpinia nigra</i> Extracts P. Janyapanich, C. Kotipan, K. Teerachawalwong, S. Watana and N. Nuntharatanapon	111
Anti-Melanogenic Activity of <i>p</i>-Chlorophenyl Benzyl Ether in α-MSH-Induced Mouse Melanoma B16F10 Cells W. Riam-Amatakun, P. Limpachayaporn, J.R.L. Pizon, P. Opanasopit and N. Nuntharatanapon	118
Biological Activities and Dermal Penetration of Liposome-Containing <i>Coprinus atramentarius</i> Extract P. Sobharaksha, R. Indranupakorn and S. Manchan	124
Formulation and Evaluation of Antifungal Shampoo Containing Modified Coconut Oil for <i>Tinea Capitis</i> Treatment S. Tubtimsri, N. Saewon, N. Khonsungdee, R. Rodjanabumrungwong and S. Limmatvapirat	130

Chapter 3: Nanomaterials and Nanoproducs

Andrographolide-Loaded Nanoemulsion and its Activity against Non-Melanoma Skin Cancer Cells N. Sooksai, W. Treesuppharat, S. Theeramunkong and R. Asasutjarit	139
Dual-Charge Nanofiber Mats Made of Chitosan(CS)/Poly(Vinyl Alcohol) (PVA) and Poly-(Acrylic Acid-Co-Maleic Acid) (PAMA)/PVA T. Chareonying, J.M. Sakilan, T. Rojanarata, P. Patrojanasophon, P. Akkaramongkolporn and P. Opanasopit	145
PEGylated Plier-Like Cationic Niosomes on Gene Delivery in HeLa Cells S. Pengnam, S. Plianwong, K. Singpanna, N. Ni-yomtham, W. Radchatawedchakoon, B.E. Yingyongnarongkul and P. Opanasopit	151
Physical Stability of Astaxanthin from <i>Haematococcus pluvialis</i> Loaded in Micromeulsion as a Cosmetic Ingredient for Melanogenesis Inhibition P. Kusolkumbot, K. Panapong, K. Kingkeaw, S. Soonthornsatitwong, S. Manchun and S. Soradech	157
Catechol-Bearing Hyaluronic Acid Coated Polyvinyl Pyrrolidone/Hydroxyl Propyl-β-Cyclodextrin/Clotrimazole Nanofibers for Oral Candidiasis Treatment C. Pornpitchanarong, K. Singpanna, T. Rojanarata, P. Opanasopit, T. Ngawhirunpat and P. Patrojanasophon	163
Niosomes Containing Spermine-Based Cationic Lipid with Different Linkers for siRNA Delivery S. Pengnam, P. Opanasopit, T. Rojanarata, N. Ni-yomtham, B.E. Yingyongnarongkul and S. Plianwong	169
Solid Lipid Nanoparticles Containing <i>Pueraria mirifica</i> Ethanolic Extract for Hair Growth Promotion K. Tansathien, N. Nuntharatanapon, S. Jaewjira, J.R.L. Pizon, P. Opanasopit and W. Rangsimawong	175
Development of Nanoemulsions Containing Coconut Oil with Mixed Emulsifiers: Effect of Mixing Speed on Physical Properties S. Pengon, W. Suchaoin, C. Limmatvapirat and S. Limmatvapirat	181
Design of Caffeine-Loaded Nanostructured Lipid Carriers Containing Coconut Oil for Topical Application S. Manchun, S. Soradech, K. Kingkaew, P. Sobharaksha, P. Srimornsak and S. Tubtimted	187

Chapter 4: Technologies of Materials Modification and Processing

Mixed Solvent-Lauric Acid Solvent-Exchange Induced <i>In Situ</i> Forming Gel T. Chantadee, W. Santimaleeworagun, Y. Phorom and T. Phaechamud	195
Alpha-Mangostin Phase Inversion Induced <i>In Situ</i> Forming Gel S. Senarat, T. Chantadee, W. Santimaleeworagun, Y. Phorom and T. Phaechamud	202
Characterization of Lauric Acid Precipitated from Biocompatible Solvents N. Puyathorn, T. Chantadee, S. Senarat and T. Phaechamud	209

Gamboge Resin-Based Phase Separation <i>In Situ</i> Forming Gel E.M. Khaing, T. Chantadee, T. Intaraphairot and T. Phaechamud	215
Matrix Forming Behavior of Doxycycline Hyclate-Loaded Beta-Cyclodextrin <i>In Situ</i> Forming Matrix and Microparticle N. Lertsuphotvanit, P. CHAIYA and T. Phaechamud	221
Application of Simplex Lattice Design in Formulation Development of Lozenges Containing <i>Vernonia cinerea</i> Extract for Smoking Cessation C. Monton, T. Sangprapai, N. Mekwimonmas, T. Sawangsang, N. Chankana and C. Luprasong	227
Development and Evaluation of Acetaminophen Orodispersible Disc with Taste-Masking Property P. Trirattanapintusorn, S. Leatpianpanit, P. Thanarangsarit, S. Sungthongjeen and W. Kriangkrai	233
Development and Evaluation of Hydroxypropyl Methylcellulose Patches Containing Clindamycin for Topical Application P. Suriyaamporn, T. Kasemsawat, B. Sirilert, K. Apiromrak, P. Patrojanasophon, Y.Y. Myat and S. Panomsuk	240
Effect of Formulations and Spray Drying Process Conditions on Physical Properties of Resveratrol Spray-Dried Emulsions P. Benjasirimongkol, S. Piriyaprasarth and P. Srimornsak	246
Influence of Process Parameters on the Characteristics of Hydrophilic Drug-Loaded Microparticles through Double Emulsion Solvent Evaporation Technique L. Sutthapitaksakul and P. Srimornsak	252
