

Table of Contents

Preface

Chapter 1: Waste and Biomass Conversion for Renewable Energy Resource

Gasification of Oil Palm Shells and Empty Fruit Bunches to Produce Gas Fuel A. Aktawan, Maryudi, S. Salamah and E. Astuti	3
Utilization of Tea Tree Branches as a Source of Thermal Energy R. Firyanto, H. Susanto, R.S.L. Ambarwati, Suherman and Widayat	8
Production of Bio-Crude Oil from Microalgae <i>Chlorella</i> sp. Using Hydrothermal Liquefaction Process A.A. Bawono, H. Adhisatrio, L. Prasakti and Y.S. Pradana	14
Potential Application of Sago Pulp Briquette for Electricity Generation Using Gasification Technology in Papua Province, Indonesia M. Syamsiro, M.N. Aridito and S. Ma'arif	20
Enhancement of Biogas Production in Anaerobic Digestion from Sludge of Dairy Waste with Fixed Bed Reactor by Using Natural Zeolite H. Pampang, C.W. Purnomo and R.B. Cahyono	27
Influence of Natural and H-Beta Zeolites on Yield and Composition of Non-Polar Fraction of Bio-Oil in Slow Co-Pyrolysis of Biomass and Polypropylene D. Supramono and S. Tiaradiba	34
Utilization of <i>Casuarina montana</i> Pruning Waste Biomass as Chemical or Energy Resources D. Irawati, D. Usman and N.N. Pradipta	40
Bio-Oil Characterizations of <i>Spirulina Platensis</i> Residue (SPR) Pyrolysis Products for Renewable Energy Development S. Jamilatun, A. Rahayu, Y.S. Pradana, B. Budhijanto, Rochmadi and A. Budiman	47
A Novel Immobilization Method of <i>Saccharomyces cerevisiae</i> on Fermentation of Nipa Palm Sap for Fuel Grade Bioethanol Production Chairul, Evelyn, S. Bahri and E. Awaltanova	53

Chapter 2: Production of Materials and Chemicals from Waste and Biomass

Physical-Mechanical Properties of Paving Block from Plastic Shopping Bags Waste and Sand Iswahyuni, I. Hermiyati, Suharyanto, U.F. Arifin and D.N. Hidayati	61
Quality Improvement of Recycled Paper with Extracted Xylan from Corncobs G.I. Budiarti, D. Fajariyanto and O. Hendratno	67
Utilization of Silica from Indonesian Solid Wastes as Catalyst Materials F. Kurniawansyah, A.D. Istiqomah, A.J. Malahayati, H.T.B.M. Petrus and A. Roesyadi	72
Silica from Geothermal Waste as Reinforcing Filler in Artificial Leather M.W. Syabani, I. Amaliyana, I. Hermiyati and Y.I. Supriyatna	78
Styrene Recovery from the Pyrolysis of Polystyrene Waste Using Bentonite and Natural Zeolite Catalyst P.B. Dewangga, Rochmadi and C.W. Purnomo	84
Triacetin Synthesis as Bio-Additive from Glycerol Using Homogeneous and Heterogeneous Catalysts Z. Mufrodi, E. Astuti, M. Syamsiro, Sutiman and S. Purwono	90
Improvement of Biocomposite Properties Based Tapioca Starch and Sugarcane Bagasse Cellulose Nanofibers M. Asrofi, Sujito, E. Syafr, S.M. Sapuan and R.A. Ilyas	96
Potency of Rare Earth Elements and Yttrium in Indonesia Coal Ash W. Rosita, D.A.A. Besari, I.M. Bendiyasa, I. Perdana, F. Anggara and H.T.B.M. Petrus	102

Zinc Oxide Recovery from Solid Waste of Electric Arc Furnace Dust (EAFD) Using Hydrometallurgical Method	
W. Astuti, A. Haerudin, I.N. Eskani, F. Nurjaman, A.P.T. Yuda, J. Setiawan, Isnaeni, Farida and D.W. Lestari	108
Characterization and A Preliminary Study of TiO₂ Synthesis from Lampung Iron Sand	
Y.I. Supriyatna, S. Sumardi, W. Astuti, A.N. Nainggolan, A.W. Ismail, H.T.B.M. Petrus and A. Prasetya	113
Preparation of Calcium Oxide/Zeolite Nanocomposite and its Application to Improve the Quality of Patchouli Oil	
K. Wijaya, M. Utami, A. Syoufian and L. Hidayatullah	119
Esterification of Glycerol with Acetic Acid in Bioadditive Triacetin with Fe₂O₃/Activated Carbon Catalyst	
Z. Mufrodi and S. Amelia	125
Synthesis of Zeolite Catalyst from Geothermal Solid Waste for Crude Glycerol Dehydration to Acrolein	
Widayat, J. Philia, T. Farsha and F. Rifaldi	130
