

Table of Contents

Preface

The Use of Composite Polymeric Materials to Increase the Effectiveness of Ship Ventilation Systems G.V. Ngo	1
Thermoplastic Characteristics of Polymer Composite Materials Used for the Manufacture of Ship Systems Pipelines G.V. Ngo	7
Synthesis of Aromatic Polyethersulfones Z. Sultigova, Z. Inarkieva, A. Kharaev, R. Bazheva and M. Parchieva	15
High Performance Aromatic Polyethersulfones Z. Sultigova, Z. Inarkieva, R. Bazheva, A. Kharaev and M. Yalkhoroeva	21
Introduction of Nanoscale Porous Aromatic Frameworks in PTMSP Matrix D. Bakhtin, L. Kulikov, A. Malakhov and S.D. Bazhenov	28
Synthesis of Poly-N,N-Dialylaminoethanoic Acid and Investigation of his Mutagenic Action on the Test System Drosophila Melanogaster M.B. Begieva, M. Bittueva, Z. Bogotova, M. Begieva and E. Gidova	40
Gas Separation Membranes Based on Germanium Containing Polyalkylenesiloxane I.L. Borisov, N. Ushakov, E. Grushevenko, E. Finkel'stein and V. Volkov	45
Influence of Casting Method on Pervaporational Performances of Polyheptylmethylsiloxane Membranes E. Grushevenko, I.A. Podtynnikov, O. Sharova, T.S. Anokhina and I.L. Borisov	51
Concerning the Application Possibility of Ultrasonic Welding of Textile Materials on the Basis of Synthetic Fibres in the Manufacturing Processes of Parachute Systems A.A. Azanova, R.Y. Galimzyanova and L.G. Khisamiyeva	56
Exploring the Complexation of Counterion in Novel Family of Polyelectrolytes with Unexpected Solubility Behaviour E.A. Bersenev, A. Maryasevskaya, E.V. Komov, D.V. Anokhin and D.A. Ivanov	61
Infrared Spectrum and Thermal Properties of LDPE, EVA and Fly Ash Composites V.M. Trong and B.D. Hoan	69
Morphology and Mechanical Properties of LDPE, EVA and Fly Ash Composites V.M. Trong and B.D. Hoan	76
Optimization of the Reaction of Catalytic Cycloalkylation of Phenol with Cyclohexene I.I. Alekperova, Z.Z. Aghamaliyev, F.M. Veliyeva and C.K. Rasulov	82
Application of Adhesives in Cosmetology R.Y. Galimzyanova, A.R. Garifullina, R.R. Garipov, M.S. Lisanevich and I.N. Musin	88
Sealing Materials Based on Polymers R.Y. Galimzyanova, M.S. Lisanevich and Y.N. Khakimullin	93
Medical Nonwovens: Effects of Radiation Sterilization on Bursting Strength R.Y. Galimzyanova, M.S. Lisanevich, E.R. Rakhmatullina and Y.N. Khakimullin	101
Obtaining Nanofibers Na-CMC in Mechanomagnetic Activated Water Solution for the Purpose of Reinforcing Concrete Structure M.A. Akulova, T.E. Slizneva, Y.A. Sokolova and A.G. Sokolova	107
The Catalytic Synthesis of Wholly Aromatic Polyesters Based on 4-hydroxybenzoic Acid via Direct Esterification T.R. Deberdeev, A.I. Akhmetshina and L.K. Karimova	112
Metal-Containing Monomers Based on Copper and Zinc Salts of Unsaturated Acids and Pendent 4-phenyl-2,2':6',2''-terpyridine Ligands: Synthesis, Characterization and Thermal Properties R.K. Baimuratova, G.I. Dzhardimalieva, V.A. Zhinzhiro, K.A. Kydralieva and I.E. Uflyand	119
Photopolymerization of OCDMA Dimetacrylate Initiated by 3,5-Di-tert-Butyl-o- Quinone and its Bis-O-Benzoquinone E. Zhiganshina, M. Arsenyev, A. Konev, Y. Chechet and S. Chesnokov	129
Determination of the Composition of Substances Migrating from Plugs Based on Bromo-Butyl Rubber into Infusion and Injection Preparations Y.N. Khakimullin, L.Y. Zakirova and A.D. Khusainov	135

The Effect of Thermal Degradation Processes on the Physical-Mechanical and Rheological Properties of Polyketone V.N. Vodyakov, A.V. Kotin, V.V. Kuznetsov, K.A. Kulikovskaya, E.A. Radaykina and M.I. Murneva	140
Composite Bitumen Binders Based on an Active Powder of Discretely Devulcanized Tire Rubber V.N. Gorbatoeva, I.V. Gordeeva, T.V. Dudareva, I.A. Krasotkina and V.G. Nikol'skii	146
One-Component Urethane Sealants Synthesis I.V. Zhukova, A.A. Tabachkov, S.N. Ivanova and I.A. Valeev	152
Reinforcement of Elastomers Based on Butadiene Rubbers and their Mixtures with Layered Silicates M.A. Ibragimov, N.N. Shishkina and E.G. Zinovjeva	158
Synthesis and Application of Copolymers Based on Styrene, Divinylbenzene and Functionalizing Monomers A.P. Rakhmatullina, M.A. Ibragimov and A. Akmyradov	163
Unsaturated Polyester Resins and Fiber-Reinforced Polymer Composites from Plant Biomass V. Klushin, E.A. Shabliy and D. Petrenko	169
New Plasticizers on the Based on 2,5-Furandicarboxylic Acid and 5,5-Oxy-Bis(methylene)bis-Furane-2-Carboxylic Acid Diesters V. Klushin, E.A. Shabliy and N.V. Smirnova	175
Triethylene Glycol Dehydration by Thermopervaporation G.S. Golubev, I.A. Podtynnikov, A.V. Balynin and I.L. Borisov	182
Properties of Hyperbranched Polyglycidol's Derivatives Y. Mikhailov, L. Romanova, A. Darovskikh and N. Garifullin	190
Numerical Model of the Mass Transfer Transition States in the Vacuum Infusion Process of the Polymer Matrix and the Reinforcing Filler Structure S. Ershov, E. Kalinin, V. Kuznetsov, S.A. Koksharov and A. Baranov	196
Modeling of Residual Stresses in a Polymer Cylinder Arising from Rotation and Cooling of the Starting Material L.I. Lesnyak, B.M. Yazyev, A.A. Avakov and L.L. Dubovitskaya	202
Rheological Aspects of Multilayered Thick-Wall Polymeric Pipes under the Influence of Internal Pressure S.B. Yazyev, S. Litvinov, A.E. Dudnik and I.G. Doronkina	209
Complex Stabilizer Based on Calcium and Zinc Stearates for PVC Compounds T.A. Borukaev, L.I. Kitieva, Z. Sultigova and R.M. Martazova	218
Modification of the Recipe of Industrial PVC Plastic for Increasing its Fire Resistance T.A. Borukaev, L.Y. Uzhakhova and Z. Sultigova	224
Effect of Technical Carbon the Deformation-Strength Properties of Low Pressure Polyethylene T.A. Borukaev, A.K. Shaov, R.D. Archakova and Z. Sultigova	229
Influence of Different Factors on the Oxidizing Polymerization of 3-Amino-3'-Nitrodiphenylazomethine and some Properties of the Received Polymer T.A. Borukaev, R.M. Otarova, A.K. Salamov and A.V. Orlov	234
Organic Aerogels Based on Epoxy Resins: Synthesis and Properties A. Voytik, G.V. Malkov, A.T. Kapasharov and A.Y. Kostin	240
Charge Propagation along the Polymer Fiber of Polyhydroxybutyrate: Is it Possible to Apply the Cable Model? O.V. Gradov, M.A. Gradova, A.A. Olkhov and A.L. Iordanskiy	246
The Aging, Biodegradation and Toxic Effects of the Polymer Biomedical Implants in Dental Practice A.G. Davidovsky	259
Preparation of R-BABP Polyimide Fibers via Wet Spinning of Polyamide Acid G. Vaganov, A. Didenko, E. Ivan'kova, E. Popova, V. Elokhovskii, A.V. Volkov, I.L. Borisov and V.E. Yudin	266
Optimization of Structure of Soft Block for Design of Adaptive Polyurethanes M.A. Gorbunova, D.V. Anokhin, V.A. Lesnichaya, A.A. Grishchuk and E.R. Badamshina	273

The Thermal Stability and Mechanical Properties of Non-Segregating Blends of Polyimides with Copoly(Urethane-Imide)s A. Didenko, D. Kuznetsov, G. Vaganov, V. Smirnova, E. Popova, A. Ivanov, B. Chernitsa, V. Svetlichnyi, V.E. Yudin and V. Kudryavtsev	280
Effect of Non-Equilibrium Low Temperature Plasma on Genuine Leather Adhesion Properties of Special Purpose Footwear Upper to Molding Compositions with Polyurethanes Base L.Y. Makhotkina, N. Tikhonova, T. Zhukovskaya, G.I. Garipova, Y.A. Kovalenko, L.R. Fatkhullina and V.I. Bil (Khristoliubova)	296
Synthesis and Properties of Polymers Based on N-Vinyl-Pyrrolidone and Halogen-Containing Compounds of Acrylic Acids Y.A. Malkanduev, M.B. Begieva, A.A. Kokoeva, M.A. Mikitaev, A.T. Dzhililov and M.K. Vindizheva	303
Phase Transitions in Polyester-Polyether Copolymers A. Kharaev, R. Bazheva, Z. Sultigova, Z. Inarkieva and A. Kongapshev	308
The Influence of Biopolymer Coated Fertilizer on the Agrochemical Parameters of the Soil I.M. Bamatov, E.V. Rumyantsev and M.M. Arsanov	315
CO₂ Absorption/Desorption on Gas-Liquid Membrane Contactors Using Monoethanolamine Solvent: Comparison of Porous and Composite Hollow Fibers M.I. Kostyanaya, E.G. Novitskii and S.D. Bazhenov	321
Composite Reinforcement as a Way to Increase the Durability of Building Structures V.E. Rumyantseva and V.S. Konovalova	336
Study of the Influence of the Forming Method on the Physical and Mechanical Characteristics of Thermoplastic Polymeric Materials A.M. Kuzmin, V.N. Vodyakov, A.V. Kotin, V.V. Kuznetsov and M.I. Murneva	342
The Effect of Inorganic Fillers on the Polyaniline Synthesis T.A. Pugacheva, V.G. Kurbatov and E.A. Indeikin	348
Isomerization of Allyl Derivatives of Bisphenol A V.A. Lisovenko, P.A. Yudaev and E.M. Chistyakov	357
Working out the Method of Obtaining Radio-Absorbing Composite Material Based on Magnetite Nanoparticles and Polydimethylsiloxanes A.A. Maltsev, S.B. Bibikov, I.E. Maltseva, N.A. Marnautov, L.K. Komissarova and A.B. Elfimov	362
Effect of Annealing on Proton Conductivity of Aquivion-Like Proton-Exchange Membrane K.R. Mugtasimova, A.P. Melnikov, E.A. Galitskaya, I.A. Ryzhkin, D.A. Ivanov and V.V. Sinitsyn	367
Thermal Properties of Poly(3-(2'-Ethyl)Hexylthiophene): Study with a Real-Time Combination of Synchrotron X-Ray Scattering and Ultrafast Chip Calorimetry A.P. Melnikov, M. Rosenthal, T. Erdmann, A. Kiri and D.A. Ivanov	375
Optimization of Film Composite Functional Properties for Sewing Products O.V. Meteleva and L.I. Bondarenko	382
Development of Approaches for Producing Polymeric Composite Materials with Higher Strength O.A. Moskal'yuk, E.S. Tsobkallo and V.E. Yudin	388
The Effect of Surface Treatment of PET Films on Adhesive Properties I. Muratov, R. Garipov, A. Efremova and A. Khasanov	394
The Modeling of Interfacial Contacts in Composites Using the Sitting Drop - Solid Body System as an Example A.A. Ignatiev, V.M. Gotovtsev, D.V. Gerasimov and P. Razgovorov	400
Pervaporation Separation of Toluene/TEG Mixture with PIM-1 Membrane I.A. Podtynnikov, A.V. Balyinin, A.A. Yushkin, P.M. Budd, A.V. Volkov and I.L. Borisov	408
Bio-Based Anti-Corrosion Polymer Coating for Fuel Cells Bipolar Plates N. Faddeev, V. Klushin and N.V. Smirnova	413
Polymeric Composites for Filling Bone Cavities D.I. Fazylova and L.A. Zenitova	419
Research of Structure and Properties of Rubber Mixtures with Adhesion Additives on the Basis of Carbamide N.N. Shishkina, Y.D. Samuilov and L.Y. Zakirova	424
Cross-Linked PIM-1 Membranes with Improved Stability to Aromatics A.A. Yushkin, A.V. Balyinin, D. Bakhtin, R. Kirk, P.M. Budd and A.V. Volkov	431

Preparation of Fine Porous Ultrafiltration Membranes from Polyacrylonitrile A.A. Yushkin, A.V. Balynin, M.E. Efimov, G. Karpacheva and A.V. Volkov	437
Properties of Polysulfone Hollow Fiber Membranes Depending on the Method of the Spinning Solution Preparing D.N. Matveev, V.P. Vasilevsky and K.A. Kutuzov	443
Roofing Materials Based on Synthetic Rubbers with Additives - Waste Products M.N. Abdikarimov, R.K. Turgumbayeva, S. Sagintaeva, G. Bergenzhanova, A. Rasmukhametova and S. Nauryzbayeva	449
Synthesis of Aromatic Polyether Ketones by Electrophilic Substitution K.T. Shakhmurzova, Z.I. Kurdanova, A.A. Zhansitov, M. Balagova and S.Y. Khashirova	456
3D-Printing Methods for Crystalline Polyetheretherketone K.T. Shakhmurzova, Z.I. Kurdanova, A.E. Baykaziev, A.A. Zhansitov and S.Y. Khashirova	466
Investigation of the Effect of the Length and Content of Carbon Fibers on the Properties of Polyphenylene Sulfide A.L. Slonov, I.V. Musov, E.V. Rzhetskaya, A.A. Zhansitov and S. Khashirova	474
Influence of Concentration of Carbon and Glass Fibers, Melt Viscosity, and Number of Extrusions on the Porosity of Composites Based on Polyphenylene Sulphone, Polyethyrimide and Polyphenylene Sulfide I.V. Musov, A.L. Slonov, A.A. Zhansitov, D.M. Khakulova and S. Khashirova	481
The Effect of Sizing Additives for Carbon Fiber on the Mechanical Properties of Polyetherimide Composites A.A. Beev, S. Khashirova, A.L. Slonov, I.V. Musov, A.A. Zhansitov and D.A. Beeva	488
Study of the Effect of Organoclay on the Structure of Cable PVC Compound A. Vindizheva, I.V. Musov and S.Y. Khashirova	494
Biologically Destroyable Polymer Compositions with the Use of Natural Filler A. Vindizheva, S.Y. Khashirova and A. Kalabin	501
Kinetic Features of Isophorone Diisocyanate and Oligoesterdiols Reaction under Waterborne Polyurethane Synthesis Conditions and the Preparation of the Polymer Dispersions S.V. Karpov, A.S. Dzhamukhanova, D.A. Chernyayev, V.P. Lodygina, V.V. Komratova and E.R. Badamshina	508
The Influence of Phases Division Surface in Nanocomposites Polymer/2D-Nanofiller on their Reinforcement Degree - The Percolation Model I.V. Dolbin, G.M. Magomedov and G.V. Kozlov	516
Features of Formation of a Multifilament Yarn from Crystallizing and Amorphous High-Heat Resistant Thermoplastics I.V. Musov, A.L. Slonov, A.A. Zhansitov, Z.I. Kurdanova and S. Khashirova	524
On the Synthesis of Copolyarylene Ether Ketones by Nucleophilic Substitution Reaction A.A. Beev, S. Khashirova, D.A. Beeva and M.U. Shokumova	532
The Effect of Water on the Thermal and Thermooxidative Destruction Processes of some Polyheteroarylenes A.S. Shabaev, S. Khashirova and A. Kalabin	538
Investigation of the Ability of the Organophosphorus Compound Tetrakis(2,4-Di-Tert-Butylphenyl)-4,4'-Biphenyl Diphosphonite to Polyetheretherketone Stabilize A.S. Shabaev, E.V. Khakyasheva, R.A. Shetov and S. Khashirova	544
The Influence of Sparse Filling of FDM-Printed Samples on Mechanical Properties of Polyphenylene Sulfone and a Carbon-Filled Composite Based on it A.A. Khashirov, A.L. Slonov and I.V. Musov	550
Modification of Industrial Polyphenylene Ether Sulfone by New Block Copolymers Containing Oxime Groups Y.I. Musaev, E.B. Musaeva, A.E. Baykaziev, A.A. Khashirov and G.M. Danilova-Volkovskaya	556
Features of Obtaining Carbon Plastics Based on Superstructural Polymer Materials D.M. Khakulova, K.T. Shakhmurzova and S. Khashirova	562
Synthesis of Aromatic Diketoximes and their Complexes with Nickel Salts Y.I. Musaev, E.B. Musaeva, S. Khashirova, M.O. Sanakoeva and A.E. Baykaziev	571
Composite Materials Based on Natural Polysaccharides and Polyguanidines S.S. Khashirova, Z.Y. Isupova, S. Khashirova and V.V. Khasanov	577
Glass-Filled Composite Materials Based on Polyarylene Ether Sulfones E.V. Rzhetskaya, A.L. Slonov, I.V. Dolbin, V.V. Davydova and S. Khashirova	583
