Preface

Chapter 1: Sustainable Construction Materials

Production of Bricks from Sludge of Palm Oil Mill Effluent (POME) A.F. Nor Asikin, N. Kasmuri and M.F. Ali	3
Compressive and Flexural Strength of Concrete Containing Recycled Polyethylene Terephthalate (PET) M.M.H. Shamsudin, N.H. Hamid and M.A.M. Fauzi	13
Review Paper: Strength Performance of Eggshell as a Cement Replacement in Concrete A.Z. Syahida, A.N. Farhayu, S.M.S. Mohsin and A.S.L. Nor Hasanah	22
Properties of Concrete with Eggshell Powder and Tyre Rubber Crumb C.B. Wei, O. Rokiah, R.P. Jaya, S.I. Doh, X.F. Li and N.I. Ramli	34
Properties of Mortar with Waste Tyre Rubber as Partial Sand Replacement C.B. Wei, O. Rokiah, T.W. Sheng, R.P. Jaya and M.M.A.B. Abdullah	49
Setting Time and Compressive Strength of Mortar Containing Cockle Shell Powder as Partial Cement Replacement K. Muthusamy, R. Embong, N. Mohamad, N.S.H. Kamarul Bahrin and F.M. Yahaya	62
Soluble Pozzolanic Materials from Coal Bottom Ash as Cement Replacement Material R. Embong, A. Kusbiantoro, A. Abd Wahab and K. Muthusamy	68
The Mechanical Properties of Concrete Incorporating Steel Slag as Supplementary Cementitious Material X.F. Li, S.I. Doh, W.Y. Feng, J.A.A. Albtoosh and B.W. Chong	81
Plasticity and Strength Behaviour of Marine Clay Stabilized with Waste Steel Dust for Soil Improvement Works A.N.H. Hanis, A.T. Syahirah, A. Azura and I.N.I. Najwa	91
Effect of Treated Sago Pith Waste Ash and Silica Fume to the Mechanical Properties of Fly Ash-Based Geopolymer Brick I.B. Johari, M.A. Md Said, M.A.B.M. Snin, N.F.A.B. Ayob, N.S.B. Jamaluddin and M.R.B.M. Rashid	100

Chapter 2: Materials and Technologies for Road Pavements

Laboratory Assessment of Dense Graded Asphalt Concrete Incorporating Coal Furnace Ash in South of Vietnam D.T. Dang, M.T. Nguyen, N.T. Hoang and A.T. Le	117
The Usage of Treated Plastic as Additive to Improve the Asphalt Mixture's Performance by Using Dry Mix Method S.N.N. Kamarudin, M.R. Hainin, M.N.M. Warid, M.K.I.M. Satar and R.P. Jaya	126
A Comprehensive Review of Flexible Pavement Failures, Improvement Methods and its Disadvantages S. Tasnim, F.U.A. Shaikh, P. Sarker, S.I. Doh and J.A.A. Albtoosh	136

Chapter 3: Properties and Durability of Structure Elements

Influence of the Steel Channel Shaped Shear Connectors on the Stability of the Simply Supported Steel Bridge without the Intermediate Bracing System in the Construction Stage V.K. Nguyen, N.D. Van, V.T.K. Vo, R.A. Nguyen, P.G. Nguyen, C.A.L. Huynh and T.N. Huynh	151
Bending Strength of Magnesium Oxide Board T.J. Chai, T.C. Siang, T.H. Kwong and K.H. Boon	169
Numerical Study on the Effect of Defect Length upon Burst Capacity of Composite Repaired Pipe K.Q. Lim, C. Bao, M.S.H. Mohd Sani and L.K. Sing	179

Hysteresis Loops of Base Isolation System - An Overview M.A. Amir and N.H. Hamid	189
Effect of Steel Fiber Reinforced in FRP Confined Concrete by Using Numerical Analysis M. Zulkarnain, Z.Z. Mukhtar and I. Yusof	202
Effects of Base Isolation and Infill Panels on the Nonlinear Time History Analysis of Reinforced Concrete Building H.J. Mohamad and M.N. Mahmood	213
Behaviour and Strengthening Methods of Tall Slender Columns in Earthquake Conditions J.C.L. Chiang and L.W. Lim	221
Evaluation of Structure Performance under Seismic Load with Non-Liner Time History on High-Rise Building Affected by Kendeng Fault Earthquake Simulation A.N. Refani, Y. Tajunnisa, K. Yudoprasetyo, F. Ghifari and D.I. Wahyudi	232
Experimental Investigation into Flexural Performance of Reinforced Profiled Steel Decking M.A. Zubir and F.M. Yahaya	243
Experimental of Inverted-T Shape Reinforced Concrete Wall Subjected to Blast Load M.A. Seman, S.M.S. Mohsin, A.M.A. Zaidi, M.F.S. Koslan and Z.M. Jaini	254

Chapter 4: Advanced Engineering Materials

Degradation of Glass Fiber Reinforced Polymer (GFRP) Material Exposed to Tropical Atmospheric Condition M. Mohammed, Y.Y. Chai, S.I. Doh and K.S. Lim	265
Static Electroplating of Iron Triad on Fastener Washers K.M. Hyie, S. Budin, N.C. Maideen and Y. Rahmawan	275
Performance of Bamboo Fiber Reinforced Composites: Mechanical Properties N. Bakar and S.C. Chin	284
