

## Table of Contents

### Preface

### Chapter 1: Metals and Processing Technologies

<b>Roll Casting of Al-Mg-Si Alloy</b> T. Haga, K. Oida, H. Watari and S. Nishida	3
<b>Casting of Aluminum Alloy Strand Using Two- and Three-Wheel Caster</b> T. Haga, M. Daishi, T. Mitsunari, H. Watari and S. Nishida	9
<b>Novel Direct Cladding of Magnesium and Aluminum Alloys Using a Horizontal Twin Roll Caster</b> G.Y. Feng, H. Watari, M. Suzuki, T. Haga and T. Shimizu	17
<b>Residual Stress Analysis in Deep Rolling Process on Gas Tungsten Arc Weld of Stainless Steel AISI 316L</b> W. Thanakulwattana and W. Nakkiew	23
<b>Subsurface Crack Initiation and Propagation in an Open Dieforged High Strength Steel: A Microstructural Analysis</b> A. Loucif, J.B. Morin, L.P. Lapierre-Boire and M. Jahazi	29
<b>Viscosity of Liquid Nanocrystalline Alloys</b> V.S. Tsepelev, Y.N. Starodubtsev and N.P. Tsepeleva	35
<b>Vacancy Formation Energy and Kinetic Properties of Liquid Metals</b> Y.N. Starodubtsev and V.S. Tsepelev	43
<b>Casting of Al-Mg Strip Using Single Roll Caster Equipped with a Scraper</b> T. Haga, K. Tsukuda, K. Oida, H. Watari and S. Nishida	49
<b>The Effect of Stirring Tool Surface Condition on Wear Characteristics in Friction Stir Welding (FSW) Process</b> N.C. Maideen, S. Budin, K.M. Hyie and N.A.M. Fohimi	57
<b>A Study on the Deformation due to High Speed Processing of Aircraft Wing Structure</b> J. An, H. Kim, D. Kim, S. Nam, Y. Yoo and S. Huh	63

### Chapter 2: Materials and Technologies for Production of Electronics

<b>A Study on the Thermal Conductivity of Thermal Grease According to Cu-Ni Content</b> H. Kang, H. Kim, S. Im, J. Yang and S. Huh	71
<b>Hydrothermal Synthesis of Binder-Free Kapok (<i>Ceiba pentandra</i>) Fiber Paper-NiCo<sub>2</sub>O<sub>4</sub> Supercapacitor Electrode</b> K.C. Fermano and M.D.L. Balela	77
<b>Effect of NABr on the Pore Size and Surface Morphology of Cu Foam Prepared by Hydrogen Bubble Templating</b> M.D.L. Balela, R.E. Masirag, F.O. Pacariem Jr. and J.M.D. Taguinod	83
<b>Predicting Atom Types of Anatase TiO<sub>2</sub> Nanoparticles with Machine Learning</b> H. Kurban, M. Kurban, P. Sharma and M.M. Dalkilic	89

### Chapter 3: Polymers and Composites

<b>Study of Mechanical Properties of 3D Printed Material for Non-Pneumatic Tire Spoke</b> R. Rugsaj and C. Suvanjumrat	97
<b>Effect of Natural Weathering Ageing on Mechanical Properties of Virgin and Recycled Polylactic Acid</b> S. Budin, K.M. Hyie, N.C. Maideen and N.A.M. Fohimi	103
<b>The Effect of Bacterial Cellulose on The Thermo Hydro-Mechanical Treatment of Wood Veneer</b> A. Nugroho, Triastuti, H. Iman, A. Zulfia and S. Sandi	109

## **Chapter 4: Materials and Technologies of Ecological Engineering**

### **Synthesis of Kapok (*Ceiba pentandra*) Carbon Sponges for Recovery of Oil and Organic Solvents**

W.C.P. Datiles, S.M. Sy and M.D.L. Balela

127

### **Parametric Study of the Adsorption of Pb (II) and Cr (VI) Ions on Modified PAN-Kapok Fibers**

J.C. Alipoyo, V.E.B. Magoncia, A.A.M. Perido and M.D.L. Balela

133

### **Nanosized S-Doped TiO<sub>2</sub> with Effective Visible-Light Degradation of BTEX from Wood-Based Panels**

H.Q. Zhu, C.Y. Lou, F.R. Liu, G.J. Jiang, X.Y. Ye and R.H. Yuan

139

## **Chapter 5: Building Materials**

### **Determination of Micromechanical Properties of Cementitious Materials with Self-Healing Agent**

Z. Prošek, P. Ryparová, A. Jíra, P. Bílý and P. Tesárek

149

### **Preliminary Study of Fire Damage on Pervious Concrete with Silica Fume and Steel Fiber**

M.G. Lee, W.C. Wang, Y.C. Wang, Y.T. Hsieh and T.Y. Huang

155

### **Mechanical Properties Evaluation of Render Mortars with Different Waterproof Additive Compositions**

J.H.A. Rocha and F.P. Galarza

161
