

Table of Contents

Preface

Chapter 1: Metals and Processing Technologies

Roll Casting of Al-Mg-Si Alloy T. Haga, K. Oida, H. Watari and S. Nishida	3
Casting of Aluminum Alloy Strand Using Two- and Three-Wheel Caster T. Haga, M. Daishi, T. Mitsunari, H. Watari and S. Nishida	9
Novel Direct Cladding of Magnesium and Aluminum Alloys Using a Horizontal Twin Roll Caster G.Y. Feng, H. Watari, M. Suzuki, T. Haga and T. Shimizu	17
Residual Stress Analysis in Deep Rolling Process on Gas Tungsten Arc Weld of Stainless Steel AISI 316L W. Thanakulwattana and W. Nakkiew	23
Subsurface Crack Initiation and Propagation in an Open Dieforged High Strength Steel: A Microstructural Analysis A. Loucif, J.B. Morin, L.P. Lapierre-Boire and M. Jahazi	29
Viscosity of Liquid Nanocrystalline Alloys V.S. Tsepelev, Y.N. Starodubtsev and N.P. Tsepeleva	35
Vacancy Formation Energy and Kinetic Properties of Liquid Metals Y.N. Starodubtsev and V.S. Tsepelev	43
Casting of Al-Mg Strip Using Single Roll Caster Equipped with a Scraper T. Haga, K. Tsukuda, K. Oida, H. Watari and S. Nishida	49
The Effect of Stirring Tool Surface Condition on Wear Characteristics in Friction Stir Welding (FSW) Process N.C. Maideen, S. Budin, K.M. Hyie and N.A.M. Fohimi	57
A Study on the Deformation due to High Speed Processing of Aircraft Wing Structure J. An, H. Kim, D. Kim, S. Nam, Y. Yoo and S. Huh	63

Chapter 2: Materials and Technologies for Production of Electronics

A Study on the Thermal Conductivity of Thermal Grease According to Cu-Ni Content H. Kang, H. Kim, S. Im, J. Yang and S. Huh	71
Hydrothermal Synthesis of Binder-Free Kapok (<i>Ceiba pentandra</i>) Fiber Paper-NiCo₂O₄ Supercapacitor Electrode K.C. Fermano and M.D.L. Balela	77
Effect of NaBr on the Pore Size and Surface Morphology of Cu Foam Prepared by Hydrogen Bubble Templating M.D.L. Balela, R.E. Masirag, F.O. Pacariem Jr. and J.M.D. Taguinod	83
Predicting Atom Types of Anatase TiO₂ Nanoparticles with Machine Learning H. Kurban, M. Kurban, P. Sharma and M.M. Dalkilic	89

Chapter 3: Polymers and Composites

Study of Mechanical Properties of 3D Printed Material for Non-Pneumatic Tire Spoke R. Rugsaj and C. Suvanjumrat	97
Effect of Natural Weathering Ageing on Mechanical Properties of Virgin and Recycled Polylactic Acid S. Budin, K.M. Hyie, N.C. Maideen and N.A.M. Fohimi	103
The Effect of Bacterial Cellulose on The Thermo Hydro-Mechanical Treatment of Wood Veneer A. Nugroho, Triastuti, H. Iman, A. Zulfia and S. Sandi	109

Improving the Tensile Properties of Curcuma Mangga Val Extract (CMVE)/PVA Nanofiber Mats by Using a Type of Non-Commercial CMVE H. Sosiati, A. Ardinista, M.D. Rianto, A. Revarti, S. Hamdan and K. Wandono	117
---	-----

Chapter 4: Materials and Technologies of Ecological Engineering

Synthesis of Kapok (<i>Ceiba pentandra</i>) Carbon Sponges for Recovery of Oil and Organic Solvents W.C.P. Datiles, S.M. Sy and M.D.L. Balela	127
Parametric Study of the Adsorption of Pb (II) and Cr (VI) Ions on Modified PAN-Kapok Fibers J.C. Alipoyo, V.E.B. Magoncia, A.A.M. Perido and M.D.L. Balela	133
Nanosized S-Doped TiO₂ with Effective Visible-Light Degradation of BTEX from Wood-Based Panels H.Q. Zhu, C.Y. Lou, F.R. Liu, G.J. Jiang, X.Y. Ye and R.H. Yuan	139

Chapter 5: Building Materials

Determination of Micromechanical Properties of Cementitious Materials with Self-Healing Agent Z. Prošek, P. Ryparová, A. Jíra, P. Bílý and P. Tesárek	149
Preliminary Study of Fire Damage on Pervious Concrete with Silica Fume and Steel Fiber M.G. Lee, W.C. Wang, Y.C. Wang, Y.T. Hsieh and T.Y. Huang	155
Mechanical Properties Evaluation of Render Mortars with Different Waterproof Additive Compositions J.H.A. Rocha and F.P. Galarza	161
