

# Table of Contents

## Preface

## Chapter 1: Composites, Polymers and Ceramic Materials

<b>Studying Breakdown and Electrical Hardening of Crystal Materials with Proton Conductivity</b> V.M. Timokhin	3
<b>Research of the Brittleness and Crack Resistance of Samples Made of Highly Hardened Silicon Carbide Ceramics</b> O. Dushko, G. Voronkova and S. Rekunov	13
<b>Epoxy Compositions Modified with Ammonium Polyphosphate and Boric Acid</b> S.G. Shuklin, L. Makarova and M. Eremina	21
<b>Prospects of Using Hyperelastic Elastomer Materials in Vehicle Suspension Systems</b> E.V. Stepanov, Y.I. Molev, S.M. Ogorodnov and L.N. Orlov	28

## Chapter 2: Structural Metals and Alloys

<b>Cast High-Strength Wear- and Corrosion-Resistant Austenitic Nitrogen Steel for Fittings Used in Shipbuilding</b> S. Muradyan, M.V. Kostina, V.S. Kostina, L. Rigina and V.M. Timokhin	41
<b>Using the Method of Measuring the Microhardness of Different Zones of Welded Joints to Assess the Strength Properties</b> V.S. Kostina, M.V. Kostina, S. Muradyan and V.M. Timokhin	48
<b>Temperature Influence on Readability of the QR-Code on Titanium Alloy</b> D.A. Konchus, E.M. Salpagarov and A.V. Sivenkov	54
<b>Microstructure and Eddy-Current Analysis of Aluminum 01570 Welded Joints Obtained by Friction Stir Welding</b> V.N. Malikov and A.V. Ishkov	60
<b>Effect of Electrotransport on Concentration Distribution in Melts Formed by Contact Melting</b> A.M. Bagov, A.I. Khasanov and M.V. Zubkhadzhiev	70
<b>Thermal Properties of Zn5al and Zn55al Alloys with II a Group Elements</b> Z. Nizomov, Z.I. Avezov, R.K. Saidov, F.M. Mirzoev and M.B. Akramov	76

## Chapter 3: Coatings and Surface Engineering

<b>Features of the Structure Formation of the Machine Parts' Surface Layer in the Conditions of Hybrid Processing</b> V. Skeebe, V. Ivancivsky and E.A. Zverev	87
<b>Determining the Residual Stresses in High-Chromium Cast Iron Plasma Coatings</b> E.A. Zverev, V. Skeebe, V. Ivancivsky, N.V. Vakhrushev, K.A. Titova, D. Lobanov and N.V. Martyushev	94
<b>Protection against Atmospheric Corrosion by Means of Coatings Based on a Fluorine-Containing Surfactant</b> S. Gaidar, M.Y. Karelina and H. Quang	101
<b>Surface Modification Techniques for Steel Components Working in Wear and Corrosion Conditions</b> L.G. Petrova and P. Demin	108
<b>Detonation Spraying of Composite Targets Based on Ni, Cr and B<sub>4</sub>C for Magnetron Multi-Functional Coating</b> V.V. Sirota, S. Zaitsev, D. Prokhorenkov, M. Limarenko, A. Skiba and M.G. Kovaleva	115

## Chapter 4: Tribology

<b>Ferromagnetic Lubricants in a Bearing with a Porous Coating of a Base Ring</b> A. Opatskikh	123
<b>Friction Impact on the Accuracy of the Dependence of Micro-Hardness on Plastic Deformation in Testing Metals under Uniaxial Compression</b> Y. Tsvetkov, E. Gorbachenko and R. Larin	132
<b>Tribological Properties of Coating Obtained by Magnetron Sputtering of the Composite Target Ni-Cr-B<sub>4</sub>C</b> V.V. Sirota, M. Limarenko, S. Zaitsev, D. Prokhorenkov, M.G. Kovaleva and A.I. Gorodov	139

## Chapter 5: Materials for Opto- and Microelectronics

<b>Electrophysical Properties of N-CuInSe Based Heterostructures</b> A.K. Matiyev, R.T. Uspazhiev, T.A. Matieva, L.I. Israilova, A.D. Israfilov, A.X. Shankhoeva and A.K. Yusupov	149
<b>Thin SiC and GaN-Based Films and Structures: Production and Properties</b> A.V. Sankin, V.I. Altukhov and Z.I. Dadasheva	156
<b>Study of IR Spectroscopy of Crystalline Materials Structure Used in Laser Shutters</b> V.M. Timokhin, V.M. Garmash and V.A. Tedgetov	162
<b>Electro-Optical Properties in <math>\beta</math>- <math>Tl_{1-x}Cu_xInS_2</math> (<math>0 \leq x \leq 0,015</math>) Crystals</b> A.K. Matiyev, R.T. Uspazhiev, T.A. Matieva, K.I. Khamsurkaev, L.I. Israilova, A.D. Israfilov, K.I. Dolakova and A.K. Yusupov	169

## Chapter 6: Materials and Technologies in Construction

<b>Compositions for Limestone Restoration</b> V. Loganina and M.V. Zaytseva	177
<b>Properties of a Composite Cement Binder Using Fuel Ashes</b> V.V. Strokova, I.Y. Markova, A.Y. Markov, M.A. Stepanenko, S.V. Nerovnaya, D.O. Bondarenko and L.H. Botsman	184
<b>High-Strength Cement Composites Modified with a Complex Additive Hyper Plasticizer - Bentonite</b> A.M. Abdullaev, R.M. Abdullaev, M.A.V. Abdullaev, D.K.S. Bataev, P.D. Bataeva and R.S. Dzhambulatov	191
