

Preface

This book is a collection of selected peer-reviewed papers presented at a virtual meeting 2021 International Conference on Sustainable Engineering and Materials Development (ICSEMD2021, 22-24 September 2021). The conference brought together experts and top researchers in an all-engaging virtual atmosphere where presentations were made on different aspects of sustainable engineering, as it is related to advanced materials, product development, mechanical, structural, and environmental engineering.

The chapters of this book are specifically selected for their in-depth coverage of recent achievements on advanced materials and sustainable materials processing technology. The definitive focus of each chapter is the analysis, characterization, and contributions that expand the frontiers of knowledge. The presented papers reflect the realisation of the sustainability principles in the development of technology and engineering.

Organizing Committee

Prof. Oluseyi Ajayi- Conference Chairman

Dr. Ayotunde Olayinka – Conference Co-Chairman

Dr. Kunle Oluwasegun - Co-Chairman (Thematic sessions' coordinator)

Dr. Michael Bodunrin – Co-Chairman

Prof. Ojo S. Fayomi, Representative of the Co-Host, Bells University of Technology

Dr. Bukola Babalola – General Secretary

Dr. Olufemi Bamidele – Technical/Scientific Committee Chairman

Dr. Abiodun Abioye – Technical/Scientific Committee Co-Chairman

Dr. Imokhai Tenebe - Technical Review Committee Secretary

Dr. Temidayo Oladosu - Technical Review Committee Assistant Secretary

Dr. Olayinka Olabanji - Assistant Secretary

Bunmi Abioye - Public Relations Officer
