Preface

Chapter 1: Alloys and Steel

Effect of Heat Treatment on Mechanical Properties and Corrosion Response of HVOF Sprayed High Entropy Alloy Coatings N.V. Abhijith, D. Kumar and K. Rawat	3
Build Orientation Effect on Bending Fatigue Performance and Impact Toughness of Laser Powder Bed Fusion Manufactured Ti6Al4V Without Heat Treatment T. Rautio, M. Jaskari, M. Hietala, A. Mustakangas, M. Keskitalo and A. Järvenpää	9
Analysing the Impact of Severe Shot Peening on the Fatigue Strength of Wire Arc Additively Manufactured Carbon Steel M. Hietala, T. Rautio, M. Keskitalo, M. Jaskari and A. Järvenpää	15
Influence of Aging Condition on the Characteristics of Continuous Precipitates of AZ80 Magnesium Alloy A. Zindal and J. Jain	21
Influence of Hydrogen on the Failure Mechanism of Standard Duplex Stainless Steel X2CrNiMoN22-5-3 Exposed to Corrosion Fatigue M. Wolf and A. Pfennig	27
Investigating Different Heat Treatment Methods to Enhance the Mechanical Properties of 9254 Steel N.M. Alharbi, B.M. Alghamdi, O.M. Alali, K.N. Alfaleh, A. Almohammedalie, M. Abdesamie and T.N. Baroud	33
The Influence of Sample Thickness on the Bending Fatigue Performance of PBF-Lb 316L Material T. Rautio, E. Roux, M. Jaskari, A. Mustakangas, M. Keskitalo, M. Hietala and A. Järvenpää	41

Chapter 2: Metal Joining

Microstructural Analysis and Microhardness Evaluation of Stainless Steel SS304 Joints Utilizing Microwave Hybrid Heating (MHH) and Cold/Heat Processing: A Fuzzy Logic Approach W. Tayier, S. Janasekaran and N.H. Jamadon	51
Brazing of Copper Foam Using Cu-4.0Sn-9.9Ni-7.8P Filler Foil: Effect of Brazing Temperature and Copper Foam Pore Density N.A. Mohd Zahri, Y. Miyashita, T. Ariga, A.S.M.A. Haseeb and N.L. Sukiman	67
Brazing of Porous Nickel to Copper and Stainless Steel: Microstructure and Mechanical Properties T. Zaharinie, M.A. Ikmal, R. Rozaimay and T. Ariga	77
Stress Concentration Modelling on Resistance Spot Welding Lap Joint of Steel ASS316L and Titanium Ti-6Al-4V with Variable Weld Geometries N. Kumar, M.S. Mohd Mansor, I. Anjum Badruddin, M. Hussein and S. Kamangar	87
Investigation on the Thermal and Wettability Properties Aided with Mechanical Test Simulation of Tin (Sn) - Bismuth (Bi) Solder Alloy at Low Reflow Temperatures N.E.E. Anuar, A. Singh, M.L. Mei Kit, H.L. Choo, R. Durairaj and S. Janasekaran	99

Chapter 3: Materials Processing Tools

A Practical Analysis of Wire Drawing Operation Effects on the Die and Product Behaviors W.I. Imad Adnan, M.A. Nasser and H.A. Hussein	117
The Role of Ceramic Materials in Surface Modification of Cutting Tools - A Review Paper W. Asaad, S.J. Kareem and H. Al-Ethari	131
