

# Table of Contents

## Preface

## Chapter 1: Sustainable Building Materials

<b>A Holistic Isotopic and Mineralogical Investigation of Ancient Thasos Theatre: Technology and Provenance of Thasos Marbles</b> D. Kyropoulou, P. Karalis, E. Dotsika and G. Diamantopoulos	3
<b>Experimental Evaluation of Adobe Bricks Reinforced with Rice Husk, Lime and Neem Fibers for the Construction of Sustainable Housing in Andean Areas</b> L.F. Gutierrez, J.R. Casas and R.M. Delgadillo	11
<b>Effects of Curing Conditions, Age, and Particle Size on CO<sub>2</sub> Sequestration of Basic Oxygen Furnace Slag Used in Concrete</b> D. Ualiyev, Z. Omarova, C.S. Shon, D. Zhang and J.R. Kim	17
<b>Experimental and Numerical Study on the Blast Resistant Performance of Geopolymer Concrete</b> J.W. Wu, H.J. Syu, Y.K. Tsai, Y.F. Li, W.H. Lee, C.Y. Kuo, C.C. Chen, W.C. Lin and Y.W. Wang	25
<b>Polymer Concretes Based on Thermosetting Polymers: Technological, Physical, Mechanical Properties and Use in Construction</b> Y. Danchenko, V. Andronov, H. Olijnyk, O. Mirus and V. Evtushenko	33
<b>Acetylation of Aspen and Alder Wood - Preliminary Tests</b> O. Horbachova, N. Buiskykh, S. Mazurchuk and V. Lomaha	45
<b>Investigation of the Influence of Aluminosilicate Adhesives Modified with Magnesite on the Strength Properties of Glued Wood Products</b> V. Lashchivskiy	53

## Chapter 2: Materials in Road Engineering and Geotechnics

<b>Low-Temperature Mixed Mode (I/II) Fracture Characterization of Polymerized Sulfur Modified AC Mixtures</b> S. Ghafari and F.M. Nejad	61
<b>A Robust Statistical Analysis of Factors Affecting Interface Bonding between Asphalt Pavement Layers</b> R. Al-Jarazi, A. Rahman and C.F. Ai	67
<b>Strength Development of Shotcrete in Compressed Air Pressurised Underground Environment</b> P.L. Ng and A.T. Yeung	75
<b>Characterization of Phosphogypsum for Potential Uses in Soil Stabilization</b> D. Temirbekov, C.S. Shon, I. Manap, D.K. Kim, H.S. Kim and J.R. Kim	83

## Chapter 3: Elements of Building Structures

<b>Effect of Cross-Section Stiffness on Strength of Rectangular Steel</b> H.T. Wu, C.H. Liu and W.T. Hsu	93
<b>Time-Variant Chloride Ingress Models for Probabilistic Assessment of Concrete Bridge Decks with De-Icing Salt Attack</b> P. Aruz and P. Koonnamas	99
<b>Analyzing the Combined Effects of Axial Loads and Bending Moments on Unequal-Angle Steel Members</b> W.T. Hsu and S.T. Chung	105
<b>Analysis of the Effect of Slenderness Ratio on Axial Force in T-Section</b> W.H. Hsu, H.C. Chung and W.T. Hsu	111

<b>Technology of Manufacturing Hollow Soil-Cement Blocks</b> O. Mykhailovska	119
<b>Investigation of the Relationship between Concrete Cylinder Dimensions and Compressive Strength</b> Y.F. Lin and C.H. Liu	129
