

Table of Contents

Preface

Chapter 1: Welding Production

Changing Welding to Digital and Green - Actions and Communication A.M. Savu, A.I. Biholar, A.A. Avram, M.C. Florescu and I.D. Savu	3
The Influence of Pigments on Ultrasonic Welding Behaviour of 3D Printed Components Using the Low Force Stereolithography Technology G.V. Mnerie, E. Dobrin, E.F. Binchiciu and L.I. Buzatu	11
Welding Corrective Maintenance Solutions for Molds A. But, C.E. Popescu and I. Duma	21
Residual Fatigue Life Estimation of Damaged Welded Structures I. Vasovic Maksimović, M. Maksimović, M. Djuric, M. Ristic and J. Vidakovic	27
Ultrasonic Welding Parameter Optimization for Electric Component Welding T.A. Kovács, L. Tóth, I.A. Perianu and M. Schramkó	37

Chapter 2: Porous Silicon-Based Materials

The X-Direction Scanning of Atomic Force Microscopy to Analyze Porous Silicon P-Type Si(100) Fabricated by Electrochemical Anodization Method R. Suryana and E. Erviana	45
Synthesis of Silica-Based Imprinted Ionic from Rice Husk Ash for Adsorption of Ni(II) T. Martini, S. Hastuti, R.M. Aliestyani and P. Azzahra	51
Application of Modified Silica as an Efficient Slow-Release Carrier Medium: A Review S. Silviana, F.A.O. Khunaifi, P.S. Hasibuan, M.N. Syalom, G.I.M. Khoirunisa and R.L. Bagaskara	59
Use of Modified Silica as Selective Adsorbent on Exhaust and Dissolved Gases S. Silviana, R.V. Silvester, D.M. Rochman, M.E. Gandasasmita, I. Kristianingsih and M.S. Rohman	75

Chapter 3: Computational Materials Science

Supramolecular Modeling of Molecularly Imprinted Chitosan-Thiamin Using Density Functional Theory I. Tahir, E. Yudha, M.F. Pradipta, K. Wijaya, M. Mudasir, M.F. Vebryana, A.J. Saviola and R. Wahab	103
Adsorption Energies of X-Doped Fullerene (X = Si, Sn, BN): A First-Principles Study N. Jannah, Y.N. Apriati, A.D. Nugraheni and S. Sholihun	117
Biaxial and Uniaxial Strain Effect on Structural and Electronic Properties of Anatase TiO₂: A First-Principle Calculation F. Zain, W. Widayanti and S. Sholihun	123
Impact of Cations and Implicit Solvent on the Sensitivity of the Enol Tautomers of 3-Nitro-1,2,4-Triazole-5-One: A DFT Study N. Prasetyo and S. Hadisaputra	133
Substituted Indole Derivatives against Leucine Transporter (LeuT) as SSRI Antidepressant: Molecular Dynamics Study M. Widyanti, M.I.D. Mardjan, N. Prasetyo, A.K.K.W. Kusuma and A.J. Saviola	145
