

# Table of Contents

## Preface

<b>Recipes of Knitting Systems Alkaline Activation Using Natural Raw Materials of the Chechen Republic</b> M. Salamanova, D. Bataev, A. Uzayeva and Z. Gacayev	1
<b>Structural Formation of a Clinkless Cement Binding Alkali Battery with Thermoactivated Margel</b> M. Salamanova, S. Murtazayev, A. Alaskhanov and Z. Gacayev	8
<b>Structural Formation of the Cement Pastes Based on the Concrete Modified Dispersed Mineral Components</b> A. Khalyushev, S. Stel'makh, E. Shcherban' and A. Chernil'nik	14
<b>The Activation Technology for the Surface Modification High Voltage Electric Field Dispersed Mineral Additives for Concrete</b> A. Khalyushev, A. Mayilyan, S. Stel'makh and E. Shcherban'	23
<b>The Cement Mechanical Activation Effective Application Field Determination</b> V. Kabanov	31
<b>Silicate Brick with Reduced Density and Thermal Conductivity</b> O. Jivotkov, V. Kotlyar, G. Kozlov, I. Jivotkova and A. Kozlov	37
<b>The Study of the Quartz Sand Bio Consolidation Processes as a Result of Carbonate Mineralization by Urolithic Bacteria</b> V.V. Strokova, U.N. Duhanina and D.A. Balitsky	44
<b>Pressed Composites Based on Gypsum and Magnesia Binders Modified with Secondary Resources</b> A. Kaklyugin, N. Stupen, L. Kastornykh and V. Kovalenko	52
<b>Effect of Calcium Synthetic Hydro Silicate Additives on the Cement Systems' Technological Characteristics</b> E.A. Shoshin, V.V. Strokova, D. Timokhin and A. Strakhov	59
<b>On the Influence of Cross-Section and Reinforcement of Reinforced Concrete Constructions on the Concentration of Coarse Aggregate in Concrete with Frame Structure</b> G. Nesvetaev, E. Lesniak, A. Kolleganov and N. Kolleganov	66
<b>The Reinforced Concrete Reinforcement Corrosion Degradation Inhibition with Nitrates of Alkali and Alkali-Earth Metals</b> V.E. Rumyantseva and V.S. Konovalova	72
<b>The Production Technology of the Ceramic Brick Soft Molding Based on Opoka-Like Rocks</b> J. Bozhko, J. Teryokhina, K. Lapunova and R. Yashchenko	79
<b>The Glass Powders' Dispersion Effect on the Glass-Reinforced Concrete Performance Properties</b> V.S. Bessmertny, O. Puchka, M. Bondarenko and V. Gorety	85
<b>Theoretical Substantiation of the Foam Concrete Strength Formation Laws</b> L. Morgun, V. Morgun, A. Bogatina and A. Revyakin	92
<b>Mass Compositions Calculation on the Basis of Argillites at Ceramic Tiles Production</b> Y. Lazareva, A. Kotlyar, M. Orlova and A. Naumov	97
<b>The Effect of Fine Dispersed Slag Component on the Slag Portland Cement Properties</b> I.V. Kozlova, O.V. Zemskova and V. Semenov	103
<b>Utilization of Waste from Thermal Power Plants in High Performance Materials' Production</b> I. Maltseva, S. Kurilova and A. Naumov	109
<b>Raw Materials in East Donbass Based on Waste Piles Processing Screenings for the Large-Sized Ceramic Stones' Production</b> E. Gaishun, K. Yavruyan, V. Kotlyar and E. Lotoshnikova	116
<b>Investigation of the Various Binders' Effect on the Lime Binder Carbonate Hardening Process for its Use in Additive Technologies</b> A. Bakhtin, N. Lyubomirskiy, T. Bakhtina and V. Nikolaenko	123
<b>Fiber Foam Tuffcrete Structure and Properties Formation on the Basis of Volcanic Tuff Dusting Waste</b> T. Khezhev, A. Ansokov, I. Kerefov and R. Malkarov	130

<b>Gypsum-Cement Composites Based on Volcanic Ash</b> T. Khezhev, T. Badzhev, T. Soblirov and T. Tamashev	136
<b>Synthesis of Modifiers in the System Cao-Sio<sub>2</sub>-H<sub>2</sub>O and their Influence on the Non-Autoclave Silicate Materials' Properties Using Aluminosilicate Binder</b> A. Volodchenko	144
<b>Physical and Mechanical Properties and Biological Resistance of the Calcareous Composites on Activated Mixing Water</b> S. Khutorskoy, D. Emelyanov, A. Matvievsky and V. Smirnov	151
<b>Some Questions of Shrinking Concrete Deformations with Extending Additive on Porous Fillers in Kabardino-Balkaria</b> B. Beshtokov and A. Tsipinov	158
<b>Frame Polymerbetons Based on Fillers of Different Nature</b> V. Erofeev, D. Gubanov, A. Bogatov and A. Bulgakov	164
<b>Cement Composites' Biostability</b> A. Rodin, S. Karpushin and V. Smirnov	171
<b>The Influence of Salts' Presence in the Materials on their Moisture and Thermal Conductivity</b> T.F. Elchishcheva and V. Erofeev	179
