

# Preface

The 5th International Conference on Frontiers of Composite Materials (ICFCM2020) was held online due to the COVID-19 epidemic.

The hot topics of ICFCM2020 have attracted authors from all over the world. We have participants from China, Indonesia, Thailand, Philippines, South Korea, Saudi Arabia, India, Poland, Malaysia, and India to share ideas and concepts in the broad area of composite materials. The conference took place over three days. All the participants enjoyed the multidisciplinary and also the International flavour.

ICFCM2020 was co-sponsored by the University of Melbourne, the University of Queensland, and South Asia Institute of Science and Engineering, supported by Flinders University, Washington University, and University of Wollongong, Australia. Thanks to the above units for their full support of this conference.

As the organizer of ICFCM2020, I am certain that virtual ICFCM2020 would be a memorable experience for you both on personal and professional grounds. Your participation made the conference more valuable and successful. We believe that this conference would surely serve as one of the most rewarding and memorable meetings for all of us.

We are preparing for ICFCM2021, which will be presented in a variety of forms. The aim and objective of ICFCM 2021 are to present the latest research and results of scientists related to Frontiers of Composite Materials topics. This conference provides opportunities for the delegates to exchange new ideas face-to-face, establish business or research relations, and find global partners for future collaborations. We hope that the conference results will significantly contribute to the knowledge in these up-to-date scientific fields.

All the members of the organizing committee are looking forward to meeting you in person.

Sincerely,

Prof. Darren Martin

On behalf of Conference Committees
